Fire Alarm Testing Log Book

A competent person should test and maintain the fire-

detection and warning system. Annual tests and checks. The

emergency lighting and all fire fighting equipment, fire alarms

and other installed systems should be tested and

maintained by a competent person. Some fire

extinguishers can be tested by owner (Britannia P50).

*Weekly fire safety check -*

*Record sheet*

The Fire Alarm Log Book is a specific document and its

role, and its contents, are defined in BS5839 Part 1:

2017, and it is necessary for premises' operators to

conform to these requirements in order to

meet their legal obligations.

## **Fire Alarm Log Book - SYAM Log Books**

The Fire Alarm Log Book is a specific document and its role, and its contents, are defined in BS5839 Part 1: 2017.

BS5839-1: 2017 states that the Fire Alarm Log Book should contain certain essential information so that persons conducting regular testing and, in particular, engineers conducting periodic tests, have this information provided to them where they need it, i.e. in the log book.

Every actuation of the fire alarm should be recorded in the logbook, including false alarms. The cause of the alarm should be recorded together with any action taken to avoid a repeat occurrence. This will enable the alarm system to be managed in accordance with BS5839, these records will also assist a service engineer to maintain the system.

*Fire Safety Logbook : Firesafe.org.uk*

When your log is full for any particular section you can simply reprint that page and add it into your log book, this way you will have a complete record of all your fire safety procedures instantly to hand. The file is in.pdf format and will open in your browser window. Please feel free to print as many copies as you like.
