This study guide may be used to supplement both the basic *Essentials of Fire Fighting* (5th edition) manual and the *Essentials of Fire Fighting and Fire Department Operations* (5th edition) manual. The questions contained in this study guide are intended to help students check their own learning progress as they read the book and advance through it or a training course. Questions are provided in a multiple-choice format because it is the most common type of question format used in fire service testing processes. The heavy-duty wire binding allows the study guide to lay flat. The questions in each chapter are separated into

Fire Fighter I and II sections so that students can focus on the level they are currently pursuing. The questions also reference the page where the relevant information may be found in the main manuals. The answers are listed in the back of the manual according to chapter and level.

This inspiring memoir recounts a man's harrowing journey from unpaid child labor in Haiti to a successful life in the United States. African slaves in Haiti emancipated themselves from French rule in 1804 and created the first independent black republic in the Western Hemisphere. But they reinstated slavery for the most vulnerable members of Haitian society—the children of the poor—by using them as unpaid servants to the wealthy. These children were—and still are—restavecs, a French term whose literal meaning of "staying with" disguises the unremitting labor, abuse, and denial of education that characterizes the children's lives. In this memoir, Jean-Robert Cadet recounts the harrowing story of his youth as a restavec, as well as his inspiring climb to middle-class American life. He vividly describes what it was like to be an unwanted illegitimate child "staying with" a well-to-do family whose physical and emotional abuse was sanctioned by Haitian society. He also details his subsequent life in the United States, where, despite American racism, he put himself through college and found success in the Army, in business, and finally in teaching.

**Course Workbook** Fire Engineering Books & Videos Brannigan's Building Construction for the Fire Service, Fourth Edition is a must read for fire fighters, prospective fire fighters, and fire science students. This edition continues the Brannigan tradition of using plain language to describe technical information about different building types and their unique hazards. This text ensures that critical fire fighting information is easy-to-understand and gives valuable experience to fire fighters before stepping onto the fireground. The first edition of Building Construction for the Fire Service was published in 1971. Frank Brannigan was compelled to write the most comprehensive building construction text for the fire service so that he could save fire fighters' lives. His passion for detail and extensive practical experience helped him to develop the most popular text on the market. His motto of: "Know your buildings," informs every aspect of this new edition of the text. Listen to a Podcast with Brannigan's Building Construction for the Fire Service, Fourth Edition co-author Glenn Corbett to learn more about this training program! Glenn discusses his relationship with the late Frank Brannigan, the dangers of heavy construction timber, occupancy specific hazards, and other areas of emphasis within the Fourth Edition.
