Those who survived were forced to take to the mountains and the skies in wondrous airships. Life has since been a struggle, with only the most ruthless and crafty able to survive. To spare themselves the same fate, the Calderans erected a battery of guns to fend off the airships of the mainland. They isolated themselves from the madness of the world, choosing instead to focus on the pursuits of art and creativity. Lieutenant Anthony Pacino reports aboard the “ project boat ” USS Vermont two years after having survived the catastrophic sinking of the Piranha. Pacino quickly learns that Vermont ’ s missions are all ultra-secret with the boat reporting only to the Sub Force commander, the National Security Advisor and the President: Vermont does the dirty deeds that need doing in deadly silence and obscurity. After Vermont misses the mark on an easy mission, there are questions asked about her ability to conduct the next mission, one that is vital to the security of the United States and the future of the submarine force. Vermont is tasked with stealing a revolutionary submarine that the Russians are testing with an Iranian crew because it ’ s too risky to use Russian sailors. It ’ s a high-stakes gamble for all involved, with the losers vanishing if things go wrong, the winners validating a world-changing technology. Pacino is part of the mission to steal the submarine, but the toughest obstacle is a wolf-pack of Russians coming to the defense of the Iranian submarine.
