The Fires of Winter is a very
absorbing, witty and sensual
historical romance. Brenna
Carmarham is not some
simpering cowering maid, she
has been raised by her father as
a son. She may be a quarter of
the size of a Viking but give
her a sword and she might
prove a match. Garrick is a
Viking merchant who already
had his heart broken by a
woman.

Fires of Winter has that element, it is just not in a supernatural way. It also has the sense of clashing cultures,

much like PR writing achieves through the introduction of difference species. It isn't as far of a stretch as you might think. This book is not going to be for everyone. Please keep in mind that the Vikings were not a gentle group of men.

Fires of Winter. The village basked in the luxuriant warmth of the midsummer sun. Not so the manor on the hill, which remained cold and forbidding, even with the sun touching its harsh grey walls. Travelers passing through the countryside often had the same impression of coldness. Today was no different.
