K-5 Marvelous Math Writing Prompts

"HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable

---

chunks and then has students practice the chunks they need, repeatedly, while also learning content.

This easy-to-read summary is an excellent tool for introducing others to the messages contained in Principles and Standards.

First Grade Fundamentals John Wiley & Sons

"From the author and illustrator of *Our Class is a Family*, this heartwarming picture book helps teachers in welcoming their new group of students on the first day of school. Through a letter written from the teacher's point of view, students are given the message that their new teacher is someone they will get to form a special bond with. Their teacher is not only there to help them academically, but also to cheer them on, and to provide a caring, safe environment for them to learn and grow. During back to school time, teachers are wanting to set the tone for the new year. In

addition to establishing rules and procedures, they are ready to get to know their kids and start building positive relationships. This is a read aloud that helps with laying that foundation, and it serves as a great starting point for get-to-know-you activities and class community building." -- Amazon website.
