Cathy Duffy draws upon her many years of home education experience, both in teaching and researching curriculum, to bring us the most thorough and useful book available on teaching teenagers at home.

**Pennsylvania Game & Fish** Muze

Publishing

The paleontologist

and professor of anatomy who co-discovered Tiktaalik, the "fish with hands," tells a "compelling scientific adventure story that will change forever how you understand what it means to be human" (Oliver Sacks). By examining fossils and DNA, he shows us that our hands actually resemble fish fins, our heads are organized like long-extinct jawless fish, and major parts of our genomes look and function like those of worms and bacteria. Your Inner Fish makes us look at ourselves

---

and our world in an illuminating new light. This is science writing at its finest—enlightening, accessible and told with irresistible enthusiasm.

**Anatomy and Physiology Coloring Book** Houghton Mifflin

??? PATRICK CROWN NEW BOOK - OCEAN ANIMALS

Workbook & Coloring

??? This Marine life ocean themed coloring book features a

variety of animals from dolphins, whales, sharks, squids,

turtles, fish,

different sea

creatures, and much

The Complete

Hawaiian Reef Fish

Coloring Book

includes over 200

colorable

illustrations to

help the reader

learn to identify

these colorful and

fascinating fishes.

Each illustration

is accompanied by a

complete

description of the

fish, including the

---

scientific, common and Hawaiian names. Their anatomical features, coloration, body designs, feeding habits and reproductive strategies are also explained in a fully illustrated section devoted to these topics. In addition, an overview of coral reef ecology is provided to help the reader understand the relationship between the fishes and the coral reef. This book may be used by the casual snorkeler, diver, or marine enthusiast. Students of marine biology will also find it to be a useful tool for academic work and practical monitoring projects. This book can also be used in the classroom to supplement a course in marine biology or ecology, or it may simply be used by younger audiences who just want to enjoy coloring in the fishes.

*Catalogue of Environmental Education Materials* R. Bowker  
Middle School Life Science Teacher's Guide is easy to use. The new design features tabbed, loose sheets which come in a stand-up box that fits neatly on a bookshelf.

---

It is divided into units and chapters so that you may use only what you need. Instead of always transporting a large book or binder or box, you may take only the pages you need and place them in a separate binder or folder. Teachers can also share materials. While one is teaching a particular chapter, another may use the same resource material to teach a different chapter. It's simple; it's convenient.
