Pushcart Prize nominee Sonya Chung has displayed her stunning talent in her award-winning short fiction and essays. Now, she renders the compelling story of a troubled family straddling cultures, fleeing and searching, in her piercing and profoundly humane first novel. In 1953, on a small island in Korea, a young boy stows away on the ferry that is carrying his older brother and his wife to the mainland. Fifty-two years later, Han Hyun-kyu is on a plane flying back to Korea, leaving behind his own wife in America. It is his daughter, Jane a war photographer recently injured in a bombing in Baghdad and forced to return to New York who journeys to find him in the small town in South Korea where his brothers have settled. Here, father and daughter take refuge from their demons, flirt with passion, and, in the wake of tragedy, discover something deeper and more enduring than they could have imagined. Just as Monica Ali's Brick Lane introduced readers to a world that is both exotic and immediate, Long for This World illuminates the complexities and the richness of family bonds and establishes Chung as an exciting new voice in fiction.

A tragicomic novel about nostalgia, addiction, and 1970s action figures. The Toy Collector is a wickedly funny portrait of a young man who sells stolen pharmaceuticals to finance his growing addiction to memorabilia. An orderly at a Times Square hospital, he buys his toys at exorbitant prices, searching the familiar tacky plastic in a perverse effort to avoid adulthood. As the story switches from the make-believe world he creates with his childhood friends-populated by Scrunch-Em, Grow-Em Dinosaurs and toy robots-to the grown-up pleasures of sex, drugs and alcohol, James falls in and out of love, and stumbles through New York City in search of dubious redemption.

Never before has so much popular culture been produced about what it means to be a girl in today's society. From the first appearance of Nancy Drew in 1930, to Seventeen magazine in 1944 to the emergence of Bratz dolls in 2001, girl culture has been increasingly linked to popular culture and an escalating of commodities directed towards girls of all ages. Editors Claudia A. Mitchell and Jacqueline Reid-Walsh investigate the increasingly complex relationships, struggles, obsessions, and idols of American tween and teen girls who are growing up faster today than ever before. From pre-school to high school and beyond, Girl Culture tackles numerous hot-button issues,

including the recent barrage of advertising geared toward very young girls emphasizing sexuality and extreme thinness. Nothing is off-limits: body image, peer pressure, cliques, gangs, and plastic surgery are among the over 250 in-depth entries highlighted. Comprehensive in its coverage of the twenty and twenty-first century trendsetters, fashion, literature, film, in-group rituals and hot-button issues that shape—and are shaped by—girl culture, this two-volume resource offers a wealth of information to help students, educators, and interested readers better understand the ongoing interplay between girls and mainstream culture.

In An Engine, Not a Camera, Donald MacKenzie argues that the emergence of modern economic theories of finance affected financial markets in fundamental ways. These new, Nobel Prize-winning theories, based on elegant mathematical models of markets, were not simply external analyses but intrinsic parts of economic processes. Paraphrasing Milton Friedman, MacKenzie says that economic models are an engine of inquiry rather than a camera to reproduce empirical facts. More than that, the emergence of an authoritative theory of financial markets altered those markets fundamentally. For example, in 1970, there was almost no trading in financial derivatives such as "futures." By June of 2004, derivatives contracts totaling \$273 trillion were outstanding worldwide. MacKenzie suggests that this growth could never have happened without the development of theories that gave derivatives legitimacy and explained their complexities. MacKenzie examines the role played by finance theory in the two most serious crises to hit the world's financial markets in recent years: the stock market crash of 1987 and the market turmoil that engulfed the hedge fund Long-Term Capital Management in 1998. He also looks at finance theory that is somewhat beyond the mainstream—chaos theorist Benoit Mandelbrot's model of "wild" randomness. MacKenzie's pioneering work in the social studies of finance will interest anyone who wants to understand how America's financial markets have grown into their current form.

For a generation, tabloids, television, and Hollywood have defined the public image of New Yorkers who live in the city's 334 housing projects. Focusing on crime, disrepair, and other ills that afflict these islands of red brick, such portrayals ironically have made it all too easy for government to reduce the support these projects have relied on since their birth some eighty years ago. And so conditions worsen further yet, as the buildings try to soldier on past their useful life, at times crumbling around the 400,000+ tenants. What if these New Yorkers had the tools and training to document their own lives? And the opportunity to share the result? Project Lives takes you on a remarkable journey into a world turned inside out, where the camera's subject becomes the storyteller. Participatory photography-of which this collection marks one of the largest efforts anywhere-approaches a new visual medium, a universal language speaking across borders and cultures. By using their single-use film cameras as a window into the heart of the projects and a creative instrument of hope, the courageous souls who set out on a daunting mission-to change how their neighbors, friends, relations, and very lives are viewed by America-may accomplish more than helping preserve their homes. George Carrano, Chelsea Davis, and Jonathan Fisher bring you a unique experience of a city within a city. All royalties from the sale of this book will be donated to resident programs at the New York City Housing Authority. Project Lives was honored in Spring 2016 by being named a finalist for both Best Multicultural Nonfiction Book of 2015, and Best Current Events/Social Change Book of 2015, in the Next Generation Indie Book Awards.

From the author of the bestselling The Modern Girl's Guide to Life comes a must-have book for the young mom, including best-kept secrets, practical advice, and multiple solutions for problems from birth to age four Just when you thought you could cook (hey, one meal counts), clean (if the queen was coming), and seduce a man (well, long enough to get married), life throws you a curveball that makes all of your previous ineptitudes in life pale in comparison. With the appearance of one little extra line on a pregnancy test, you're thrown into a world of covering up leaks on shirts and taking a pacifier away from a two-year-old who has the grip of a pit bull. In this funny, smart, and honest book, Jane Buckingham cuts through the clutter to give you simple information and practical advice for navigating the different stages of motherhood. From how to get your child to sleep and how to wean, to how to get him off the pacifier and how to stop his tantrums, this book will help moms feel in the know and in control! Some of Buckingham's favorite tips: If your baby has a hard time feeding because of a stuffy nose, turn on the shower to steam up the bathroom and feed her there. Put your children's paints in an empty egg carton -- it's the perfect size, and there's no mess to clean up when you're done. Use an old raincoat with the arms cut off as a smock. You should buy a new car seat, rather than borrowing a friend's old car seat, as there are constant safety upgrades. Also, be sure you are the person registered to that car seat (send in that registration card!) so that you'll be notified in case of a recall. Keep the three-day rule in mind: Almost any bad habit can be broken in three days. Granted, they may be tough, torturous days, but you can do it! The Modern Girl's Guide to Motherhood helps modern moms do it all with love, style, and flair!
