The achievements of science and technology during the past century are unparalleled in history. They provide the potential for the solution to all the problems faced by the planet, and equally for its total destruction.

Allegedly scientific theories are being used to "prove" that criminality is caused, not by social conditions, but by a "criminal gene". Black people are alleged to be disadvantaged, not because of discrimination, but because of their genetic make-up. Of course, such "science" is highly convenient to right-wing politicians

---

intent on ruthlessly cutting welfare. In the field of theoretical physics and cosmology there is a growing tendency towards mysticism. The "Big Bang" theory of the origin of the universe is being used to justify the existence of a Creator, as in the book of Genesis . For the first time in centuries, science appears to lend credence to religious obscurantism. Yet this is only one side of the story.

Newly revised and updated, this compassionate and authoritative guide is based on Libby Kumin's more than thirty years experience working with children and adolescents with Down syndrome and their families. As the founder of the Down Syndrome Center for Excellence at Loyola University in Maryland, she draws on her vast experience to show parents how they can support and encourage their child's speech and language development from birth to age 6 (or when a child can form 2- to 3- word sentences). Parents and teachers learn how to work through characteristic challenges, including hearing loss, intelligibility issues, apraxia (difficulty planning oral-motor movements), or a slower pace of development. Families soon see that many children with Down syndrome are natural and willing communicators. In a warm and conversational style, the author shares her professional expertise in parent-friendly terms. She uses specific examples of difficulties and successes to illustrate the

---

concepts behind speech and language development, and includes the latest research supporting current early intervention and preschool approaches that can be used at home and in schools. This third edition of **EARLY COMMUNICATION SKILLS** features expanded information on the needs of children with apraxia, dual diagnosis of autism and Down syndrome, and updated terminology and information on special education law. A new chapter explains how technology and augmentative and alternative communication (AAC) ? smartphones, iPods, iPads, and apps ? can help with speech and language, foster communication, and provide inexpensive transitional language systems. Dozens of forms are now included on a CD-ROM to be used for assessment, developing treatment plans, and keeping detailed records of progress. Teachers, speech-language pathologists, and parents will love the convenience of printing multiple copies of forms and organizing information for IEP

meetings or periodic evaluations. Kincaid's Battery Good Press During the Cold War, freedom of expression was vaunted as liberal democracy's most cherished possession—but such freedom was put in service of a hidden agenda. In *The Cultural Cold War*, Frances Stonor Saunders reveals the extraordinary efforts of a secret campaign in which some of the most vocal exponents of intellectual freedom in the West were working for or subsidized by the CIA—whether they knew it or not. Called "the most comprehensive account yet of the [CIA's] activities between 1947 and 1967" by the *New York Times*, the book presents shocking evidence of the CIA's undercover program of cultural interventions in Western Europe and at home, drawing together declassified documents and exclusive interviews to expose the CIA's astonishing campaign to deploy the likes of Hannah Arendt, Isaiah Berlin, Leonard Bernstein, Robert Lowell, George Orwell, and Jackson Pollock as weapons in the Cold

"In the Fall of 2010 I gave an assignment in my Appalachian Literature class at Berea College, telling my students to write their own version of "Where I'm From" poem based on the writing prompt and poem by George Ella Lyon, one of the preeminent Appalachian poets. I was so impressed by the results of the assignment that I felt the poems needed to be preserved in a bound document. Thus, this little book. These students completely captured the complexities of this region and their poems contain all the joys and sorrows of living in Appalachia. I am proud that they were my students and I am very proud that together we produced

To fling my arms wide In some place of the sun, To whirl and to dance Till the white day is done.... Langston Hughes's inspiring and timeless message of pride, joy, and the dream of a better life is brilliantly and beautifully interpreted in Daniel Miyares's gorgeous artwork. Follow one African-American boy through the course of his day as the harsh reality of segregation and racial prejudice comes into vivid focus. But the boy dreams of a different life—one full of freedom, hope, and wild

possibility, where he can fling his arms wide in the face of the sun. Hughes's powerful vision, brought joyously to life by Daniel Miyares, is as relevant—and necessary—today as when it was first written.
