Edited by Fr. James V. Schall, S.J. This next volume in Chesterton's series of collected works contains four of his books and four shorter "English" essays. Three of the books are accounts of his travels, two to Ireland and one to Palestine via Egypt. The fourth book is Chesterton's own effort to explain English history to Englishmen as well as to other interested parties, particularly the Irish. All of these books date from about 1920, except Christendom in Ireland, which concerns the 1932 Dublin Eucharistic Congress, which Chesterton attended.

When seventeen-year-old T. J. Parsell held up the local Photo Mat with a toy gun, he was sentenced to four and a half to fifteen years in prison. The first night of his term, four older inmates drugged Parsell and took turns raping him. When they were through, they flipped a coin to decide who would "own" him. Forced to remain silent about his rape by a convict code among inmates (one in which informers are murdered), Parsell's experience that first night haunted him throughout the rest of his sentence. In an effort to silence the guilt and pain of its victims, the issue of prisoner rape is a story that has not been told. For the first time Parsell, one of America's leading spokespeople for prison reform, shares the story of his coming of age behind bars. He gives voice to countless others who have been exposed to an incarceration system that turns a blind eye to the abuse of the prisoners in its charge. Since life behind bars is so often exploited by television and movie re-enactments, the real story has

yet to be told. Fish is the first breakout story to do that.

In her revealing autobiography, Dr. Tolbert describes how she overcame the obstacles that threatened to derail her aspirations for a sound education and professional career. From humble beginnings—surrounded by dirt roads and segregated schools, left orphaned and penniless at an early age—she chose a path of hard work and diligent study that lifted her out of poverty, despair, and ignorance. In an era of tense race relations, and despite numerous stumbling blocks, Dr. Tolbert rose to prominence as an African-American scientist, educator, and administrator—often in positions traditionally held by males. She eventually became: • The first African-American female to serve as director of the nation's New Brunswick Laboratory. • The first African-American female appointed director of education at Argonne National Laboratory. • The first female to serve as director of the Carver Research Foundation of Tuskegee Institute. • One of six African-American senior executives at the National Science Foundation. • The second African-American to graduate from Brown University with a doctorate in biochemistry. • The first member of the Mayo family of Suffolk, Virginia, to earn a doctoral degree. Her journey, however, was no "crystal stair." In publishing her tale, Dr. Tolbert affirms our human ability to survive the unexpected, rally against adversity, and charge ahead on a path to personal accomplishment. She is a strong role model with an inspirational message for others struggling against overwhelming odds.

HERE ARE OVER SEVENTY GAMES TO HELP YOUR CHILD LEARN TO READ--AND LOVE IT. Peggy Kaye's Games for Reading helps children read by doing just what kids like best: playing games. There is a "bingo" game that helps children learn vocabulary. There is a rhyming game that helps them hear letter sounds more accurately. There are mazes and puzzles, games that train the eye to see patterns of letters, games that train the ear so a child can sound out words, games that awaken a child's imagination and creativity, and games that provide the right spark to fire a child's enthusiasm for reading. There are games in which your child has to act silly and games--sure to be any child's favorite--in which you do. Easy to follow and easy to play, these games are ideal for busy, working parents. You can read a game in a few minutes and start to play right away. You can play on car trips, while doing the laundry, or while cooking. These games are so much fun for the whole family that you may forget their serious purpose. But they will help all beginning readers--those who have reading problems and those who do not--learn to read and want to read. Games for Reading also includes a list of easy-to-read books and books for reading aloud, and a "Note to Teachers" on how to play these games in their classrooms.
