A key feature of this curriculum is the complete integration of physical education and health concepts and skills to maximize student interest, learning, and application. This objective was accomplished by combining the expertise of our author teams from two related textbooks--Fitness for Life, Sixth Edition, and Health for Life. This is not just a health textbook with a few physical education concepts thrown in. School systems that want a single textbook to help them address both physical education and health education standards will find that this book provides them a unique and cost-effective option. Health Opportunities Through Physical Education is available in print and digital formats, including an iBooks interactive version for iPads plus other e-book formats that students can use across a variety of platforms. Part I, Fitness for Life, will help students become physically literate individuals who have the knowledge, skills, and confidence to enjoy a lifetime of healthful physical activity. The book will guide students in becoming informed consumers on matters related to lifelong physical activity and fitness, taking responsibility for setting individualized goals, and making their own plans for active living. To accomplish this overarching goal, they learn a variety of self-management skills, including self-assessment. The program is based on established educational theory, which is outlined in the teacher web resources. And they learn all of this through a combination of classroom and physical activity lessons that meet national, state, and local physical activity guidelines and help instill a love for lifetime fitness activities. A Good Morning America Summer Must-Read! From the bestselling authors of *The Knockoff*, an outrageously funny novel about one woman's attempt—through clay diets, naked yoga, green juice, and cultish workout classes—to win back her career, save her best friend, and lose thirty pounds. When Janey Sweet, CEO of a couture wedding dress company, is photographed in the front row of a fashion show eating a bruffin—the delicious lovechild of a brioche and a muffin—her best friend and business partner, Beau, gives her an ultimatum: Lose thirty pounds or lose your job. Sure, Janey has gained some weight since her divorce, and no, her beautifully cut trousers don't fit like they used to, so Janey throws herself headlong into the world of the fitness revolution, signing up for a shockingly expensive workout pass, baring it all for Free the Nipple yoga, sweating through boot camp classes run by Sri Lankan militants and spinning to the screams of a Lycra-clad instructor with rage issues. At a juice shop she meets Jacob, a cute young guy who takes her dumpster-diving outside Whole Foods on their first date. At a shaman's tea ceremony she meets Hugh, a silver fox who holds her hand through an ayahuasca hallucination. And at a secret exercise studio Janey meets Sara Strong, the wildly popular workout guru whose special dance routine has starlets and wealthy women flocking to her for results that

seem too good to be true. As Janey eschews delicious carbs, pays thousands of dollars to charlatans, and is harassed by her very own fitness bracelet, she can't help but wonder: Did she really need to lose weight in the first place? A hilarious send-up of the health and wellness industry, *Fitness Junkie* is a glorious romp through the absurd landscape of our weight-obsessed culture.
