YOUR HEALTH IS YOUR WEALTH Trudging through the icy, mountain streets of Davos, Switzerland, at the World Economic Forum, Meghan FitzGerald realized this moment--among a select few experiences--was symbolic of a heavy climb to the top of an enduring healthcare career--but at what cost? Looking back, she realized she had put a premium on education, connections, and compensation . . . and would only later learn the important value that personal health should have in life choices and work benefits. In ASCENDING DAVOS: A CAREER JOURNEY FROM THE EMERGENCY ROOM TO THE BOARDROOM, Meg shares valuable insights learned from her novel study about the impact of increased status on one's personal health and during her ascent from caregiving roles to healthcare strategist to academic to dealmaker, including: -Be overprepared and have "content and connections." -Have a long-term strategy but short-term goals. -Develop and deploy star sponsors to pull you up and beyond. -Maniacally cultivate and promote your brand. -Education and training, particularly in finance, are great equalizers. -Health is your wealth Through it all, Meg retained a "Get Shit Done" (GSD) mindset: wake up, show up, and perform at your best, no matter the task

A new Pope will be chosen in Rome . . . and she just might be a woman. But she's made some powerful enemies who will stop at nothing—not even murder. The world is watching as massive crowds gather in Rome, waiting for news of a new pope, one who promises to be unlike any other in history. It's a turning point that may change the Church forever. Some followers are ecstatic that the movement reinvigorating the Church is about to reach the Vatican, but the leading candidate has made a legion of powerful enemies who aren't afraid to kill for their cause. From a difficult childhood with drug addled parents, to a career as a doctor on the front lines in Sudan, to a series of trials that test her faith at every turn, Brigid Fitzgerald's convictions and callings have made her the target of all those who fear that the Church has lost its way—dangerous adversaries who abhor challenges to tradition. Locked in a deadly, high-stakes battle with forces determined to undermine everything she believes in, Brigid must convert her enemies to her cause before she loses her faith . . . and her life. From a civil war in Sudan to the drug dens and law firms of Boston, *Woman of God* spans the globe with a thrilling tale of perseverance, love, trust and what it means to live in a fallen world.

Flappers and Philosophers PURE SNOW PUBLISHING

Patients at Risk: The Rise of the Nurse Practitioner and Physician Assistant in Healthcare exposes a vast conspiracy of political maneuvering and corporate greed that has led to the replacement of qualified medical professionals by lesser trained practitioners. As corporations seek to save money and government agencies aim to increase constituent access, minimum qualifications for the guardians of our nation's healthcare continue to decline—with deadly consequences. This is a story that has not yet been told, and one that has dangerous repercussions for all Americans. With the rate of nurse practitioner and physician assistant graduates exceeding that of physician graduates, if you are not already being treated by a non-physician, chances are, you soon will be. While advocates for these professions insist that research shows that they can provide the same care as physicians, patients do not know the whole truth: that there are no credible scientific studies to support the safety and efficacy of non-physicians practicing without physician supervision. Written by two physicians who have witnessed the decline of medical expertise over the last twenty years, this data-driven book interweaves heart-rending true patient stories with hard data, showing how patients have been sacrificed for profit by the substitution of non-physician practitioners. Adding a dimension neglected by modern healthcare critiques such as *An American Sickness*, this book provides a roadmap for patients to protect themselves from medical harm. WORDS OF PRAISE and REVIEWS Al-Agba and Bernard tell a frightening story that insiders know all too well. As mega corporations push for efficiency and tout consumer focused retail services, American healthcare is being dumbed down to the point of no return. It's a story that many media outlets are missing and one that puts you and your family's health at real risk. --John Irvine, *Deductible Media* Laced with actual patient cases, the book's data and patterns of large corporations replacing physicians with non-physician practitioners, despite the vast difference in training is enlightening and astounding. The authors' extensively researched book methodically lays out the problems of our changing medical care landscape and solutions to ensure quality care. --Marilyn M. Singleton, MD, JD A masterful job of bringing to light a

rapidly growing issue of what should be great concern to all of us: the proliferation of non-physician practitioners that work predominantly inside algorithms rather than applying years of training, clinical knowledge, and experience. Instead of a patient-first mentality, we are increasingly met with the sad statement of Profits Over Patients, echoed by hospitals and health insurance companies. --John M. Chamberlain, MHA, LFACHE, Board Chairman, Citizen Health A must read for patients attempting to navigate today's healthcare marketplace. --Brian Wilhelmi MD, JD, FASA

"Known not only for his brilliant novels but also for short stories chronicling the Jazz Age, such as 'Bernice bobs her hair' and 'The diamond as big as the Ritz,' F. Scott Fitzgerald continued to write stories his entire life, some of which were never published--until now. Many of the stories in I'd die for you were submitted to major magazines and accepted for publication during Fitzgerald's lifetime but were never printed. A few were written as movie scenarios and sent to studios or producers, but not filmed. Others are stories that could not be sold because their subject matter or style departed from what editors expected of Fitzgerald in the 1930s. They come from various sources, from library archive to private collections, including those of Fitzgerald's family"--Jacket flap.
