[The African Imagination in Music](#) Harper Collins

In the tradition of grand sweeping histories such as From Dawn To Decadence, The Structure of Scientific Revolutions, and A History of God, Hecht champions doubt and questioning as one of the great and noble, if unheralded, intellectual traditions that distinguish the Western mind especially-from

Socrates to Galileo and Darwin to Wittgenstein and Hawking. This is an account of the world's greatest 'intellectual virtuosos,' who are also humanity's greatest doubters and disbelievers, from the ancient Greek philosophers, Jesus, and the Eastern religions, to modern secular equivalents Marx, Freud and Darwin—and their attempts to reconcile the seeming meaninglessness of the universe with the human need for meaning, This remarkable book ranges from the early Greeks, Hebrew figures such as Job and Ecclesiastes, Eastern critical wisdom, Roman stoicism, Jesus as a man of doubt, Gnosticism and Christian mystics, medieval Islamic, Jewish and Christian skeptics, secularism, the rise of science, modern and contemporary critical thinkers such as Schopenhauer, Darwin, Marx, Freud,

Nietzsche, the existentialists.

'A delight to read' Philip Pullman 'Essential reading ... a genuine landmark publication' Tom Service A BBC Radio 4 'Book of the Week' The music of the British composer Michael Tippett - including the oratorio A Child of Our Time, five operas, and four symphonies - is among the most visionary of the twentieth century. But little has been written about his extraordinary life. In this long-awaited first biography, Oliver Soden weaves a century-spanning narrative of epic scope and penetrating insight. Soden has discovered troves of unpublished letters and manuscripts, and recorded moving interviews with Tippett's friends and colleagues. He paints a portrait of a powerful intellect and infectious personality: charming, stubborn, and great fun. But he also uncovers the sorrows and secrets that Tippett stowed away beneath his cheerfulness, not least the darker reaches of some tempestuous and often tragic love affairs. Soden's achievement is to have enriched our understanding not only of Tippett but of his times. Figures such as T.S. Eliot, E.M. Forster, Barbara Hepworth, and W.H. Auden jostle in the cast list. An Edwardian world of gaslight and empire cedes to turmoil and warfare; one startling revelation is the extent of Tippett's involvement in the fiery left-wing politics of the 1930s. The narrative roves from the mining villages of the north, blighted by unemployment, to a cell at Wormwood Scrubs, where Tippett was imprisoned as a conscientious objector. Later chapters uncover his operas' game-changing attitudes to gay and civil rights, against a backdrop of the Cold War and the Space Race. And singing from the page comes the music, through which Soden charts an exquisitely written course,

offering lucid readings of Tippett's most famous works while resuscitating forgotten masterpieces. The result is a landmark in the study of twentieth-century culture, simultaneously an astonishing feat of scholarship and a story as enthralling as in any great novel.

Speaking of Faith Psychology Press

Sir Michael Tippett has been a central figure in British musical life for many decades and is now widely regarded as one of the foremost composers of the century. Meiron Bowen's new updated study offers an in-depth examination of all Tippett's major compositions. The author's 35 year association with the composer and immense experience of Tippett's music in performance result in some unique insights into his creative personality. He reveals a Blake-like visionary and an intensely human artist, sensitive to both people and to public events in a strife-torn century, but also stubbornly upholding the integrity and independence of his art.

The Pre-history of 'The Midsummer Marriage' examines the early collaborative phase (1943 to 1946) in the making of Michael Tippett's first mature opera and charts the developments that grew out of that phase. Drawing on a fascinating group of Tippett's sketchbooks and a lengthy sequence of his letters to Douglas Newton, it helps construct a narrative of the Tippett-Newton collaboration and provides insights into the devising of the opera's plot,

both in that early phase and in the phase from 1946 onwards when Tippett went on with the project alone. The book asks: who was Newton, and what kind of collaboration did he have—and cease to have—with Tippett? What were the origins of and shaping factors behind the original scenario and libretto-drafts? How far did the narrative and controlling concepts of *Midsummer Marriage* in its final form tally with—and how far did they move away from—those that had been set up in the years of the two men’s collaboration, the ‘pre-historic’ years? The book will be of particular interest to scholars and researchers in opera studies and twentieth-century music.

A Directory of Composers for Organ Routledge
With a Foreword by Krista Tippett—a poignant and beautiful collection of conversations and presentation from John O’Donohue’s work with close friend and former radio broadcaster John Quinn John O’Donohue, beloved author of *To Bless the Space Between Us*, is widely recognized as one of the most charismatic and inspirational enduring voices on the subjects of spirituality and Celtic mysticism. These timeless exchanges, collated and introduced by Quinn, span a number of years and explore themes such as imagination, landscape, the medieval mystic Meister Eckhart, aging, and death. Presented in O’Donohue’s inimitable lyrical style, and filled with rich insights that will feed the “unprecedented spiritual hunger” he observed in modern society, *Walking in Wonder* is a welcome tribute to a much-loved author whose work still touches the lives of millions around the world.

The moth snowstorm, a phenomenon Michael McCarthy remembers from his boyhood when moths “would pack a car’s headlight beams like snowflakes in a blizzard,” is a distant memory. Wildlife is being lost, not only in the wholesale extinctions of species but also in the dwindling of those species that still exist. *The Moth Snowstorm* is unlike any other book about climate change today; combining the personal with the polemical, it is a manifesto rooted in experience, a poignant memoir of the author’s first love: nature. McCarthy traces his adoration of the natural world to when he was seven, when the discovery of butterflies and birds brought sudden joy to a boy whose mother had just been hospitalized and whose family life was deteriorating. He goes on to record in painful detail the rapid dissolution of nature’s abundance in the intervening decades, and he proposes a radical solution to our current problem: that we each recognize in ourselves the capacity to love the natural world. Arguing that neither sustainable development nor ecosystem services have provided adequate defense against pollution, habitat destruction, species degradation, and climate change, McCarthy asks us to consider nature as an intrinsic good and an emotional and spiritual resource, capable of inspiring joy, wonder, and even love. An award-winning environmental journalist, McCarthy presents a clear, well-documented picture of what he calls “the great thinning” around the world, while interweaving the story of his own early discovery of the wilderness and a childhood saved by nature. Drawing on the truths of poets, the studies of scientists, and the author’s long experience in the field, *The Moth Snowstorm* is part elegy, part ode, and part argument, resulting in a passionate call to action.

Acceptance of Christianity in Southern Polynesia during the eighteenth century proceeded rapidly without missionary

activity. This fact attracted the attention of Alan Tippett, who served for twenty years as an Australian missionary to the Fiji Islands. What he found was that the key to their conversion lay in the fact that, without missionary presence, the south sea islanders responded to demonstrations of what Tippett learned to call "power encounters." These were contests, some staged, some not staged, in which there was a power encounter between the true God and the gods of the islanders in which the traditional gods were defeated. Kraft here discusses the fact that this power principle applies much more widely.

First published in 1867, *Slave Songs of the United States* represents the work of its three editors, all of whom collected and annotated these songs while working in the Sea Islands of South Carolina during the Civil War, and also of other collectors who transcribed songs sung by former slaves in other parts of the country. The transcriptions are preceded by an introduction written by William Francis Allen, the chief editor of the collection, who

provides his own explanation of the origin of the songs and the circumstances under which they were sung. One critic has noted that, like the editors' introductions to slave narratives, Allen's introduction seeks to lend to slave expressions the honor of white authority and approval. Gathered during and after the Civil War, the songs, most of which are religious, reflect the time of slavery, and their collectors worried that they were beginning to disappear. Allen declares the editors' purpose to be to preserve, "while it is still possible ... these relics of a state of society which has passed away."

The first biography of its kind about Desmond Tutu, this book introduces readers to Tutu's spiritual life and examines how it shaped his commitment to restorative justice and reconciliation. Desmond Tutu was a pivotal leader of the anti-apartheid movement in South Africa and remains a beloved and important emblem of peace and justice around the world. Even those who do not know the major events of Tutu's life—receiving the Nobel Peace Prize in 1984, serving as the first black archbishop of Cape Town and primate of Southern Africa from 1986–1996, and chairing the Truth and Reconciliation Commission from 1995–1998—recognize him as a charismatic political and religious leader who helped facilitate the liberation of oppressed peoples from the

ravages of colonialism. But the inner landscape of Tutu's spirituality, the mystical grounding that spurred his outward accomplishments, often goes unseen. Rather than recount his entire life story, this book explores Tutu's spiritual life and contemplative practices—particularly Tutu's understanding of Ubuntu theology, which emphasizes finding one's identity in community—and traces the powerful role they played in subverting the theological and spiritual underpinnings of apartheid. Michael Battle's personal relationship with Tutu grants readers an inside view of how Tutu's spiritual agency cast a vision that both upheld the demands of justice and created space to synthesize the stark differences of a diverse society. Battle also suggests that North Americans have much to learn from Tutu's leadership model as they confront religious and political polarization in their own context.

“The discourse of our common life inclines towards despair. In my field of journalism, where we presume to write the first draft of history, we summon our deepest critical capacities for investigating what is inadequate, corrupt, catastrophic, and failing. The ‘news’ is defined as the extraordinary events of the day, but it is most often translated as the extraordinarily terrible events of the day. And in an immersive 24/7 news cycle, we internalize the deluge of bad news as the norm—the real truth of who we are and what we're up against as a species. But my work has shown me that spiritual geniuses of the everyday are everywhere. They are in the margins and do not have publicists. They are below the radar, which is broken.”

Peabody Award-winning broadcaster and National Humanities Medalist Krista Tippett has interviewed the most extraordinary voices examining the great questions of meaning for our time. The heart of her work on her national public radio program and podcast, *On Being*, has been to shine a light on people whose insights kindle in us a sense of wonder and courage. Scientists in a variety of fields; theologians from an array of faiths; poets, activists, and many others have all opened themselves up to Tippett's compassionate yet searching conversation. In *Becoming Wise*, Tippett distills the insights she has gleaned from this luminous conversation in its many dimensions into a coherent narrative journey, over time and from mind to mind. The book is a master class in living, curated by Tippett and accompanied by a delightfully ecumenical dream team of teaching faculty. The open questions and challenges of our time are intimate and civilizational all at once, Tippett says – definitions of when life begins and when death happens, of the meaning of community and family and identity, of our relationships to technology and through technology. The wisdom we seek emerges through the raw materials of the everyday. And the enduring question of what it means to be human has now become inextricable from the question of who we are to each other. This book offers a grounded and fiercely hopeful vision of humanity for this century – of personal growth but also renewed public life and human spiritual evolution. It insists on the possibility of a common life for this century marked by resilience and redemption, with beauty as a core moral value and civility and love as muscular practice. Krista Tippett's great gift, in her work and in *Becoming Wise*, is to avoid reductive simplifications but still find the golden threads that weave people and ideas together into a shimmering braid. One powerful common denominator of the lessons imparted to Tippett is the gift of presence, of the exhilaration of engagement

with life for its own sake, not as a means to an end. But presence does not mean passivity or acceptance of the status quo. Indeed Tippett and her teachers are people whose work meets, and often drives, powerful forces of change alive in the world today. In the end, perhaps the greatest blessing conveyed by the lessons of spiritual genius Tippett harvests in *Becoming Wise* is the strength to meet the world where it really is, and then to make it better.

Why is revenge such a pervasive and destructive problem? How can we create a future in which revenge is less common and forgiveness is more common? Psychologist Michael McCullough argues that the key to a more forgiving, less vengeful world is to understand the evolutionary forces that gave rise to these intimately human instincts and the social forces that activate them in human minds today. Drawing on exciting breakthroughs from the social and biological sciences, McCullough dispenses surprising and practical advice for making the world a more forgiving place. Michael E. McCullough (Miami, Florida), an internationally recognized expert on forgiveness and revenge, is a professor of psychology at the University of Miami in Coral Gables, Florida, where he directs the Laboratory for Social and Clinical Psychology.

"As a leading researcher in the field of biology, Robin Wall Kimmerer understands the delicate state of our world. But as an active member of the Potawatomi nation, she senses and relates to the world through a way of knowing far older than any science. In *Braiding Sweetgrass*, she intertwines these two modes of awareness--the analytic and the emotional, the scientific and the cultural--to ultimately reveal a path toward healing the rift that grows between people and nature. The woven essays that construct this book bring people back into conversation with all that is green and growing; a universe that never stopped speaking to us, even when we forgot how to listen"--

Song of the Outcasts Convergent Books
Flamenco has taken the world by storm, with huge crowds experiencing its power. Ironically, though, if the performance is authentic - and much in the tourist trade is not - the uninitiated may find it baffling; the rhythms are exotic and strange, the intensity of feeling startling. Yet for the Andalusians, flamenco has been familiar for a thousand years: it is the song of the outcasts. Robin Totton writes from his life among them, for he has come as close to flamenco as any outsider can hope to. Readers will follow as he walks us through the poetic song forms, the rhythmic guitar and the flamboyant dance, as well as the vocabulary, names and places of living art of flamenco.
