The Most Expensive Night of Her Life Houghton Mifflin Harcourt

In Gregory Zeigler's environmental thriller *The Straw That Broke*, Lyn Burke, a vulnerable young scientist and free spirit, gets caught up in a battle between ecoterrorists and corrupt public officials over water in the

drought-stricken desert Southwest. Lyndall 's disappearance causes police officer Susan Brand and private investigator Jake Goddard to rush to her aid. Abduction, deceit, and murder threaten to trigger a cataclysm that places the entire region in jeopardy. In a parched and frightening future in which two-thirds of the world's population is expected to be living under severe water shortages, *The Straw That Broke* is a modern allegory, shedding light on the desperate clashes over precious water, and on our imperiled future. Lavino, National Museum of Wildlife Art, Jackson, Wyoming. Visual Intelligence Speaking Volumes The New Routledge Companion to Science Fiction provides an overview of the study of science fiction across multiple academic fields. It offers a new conceptualisation of the field today, marking the significant changes that have taken place in sf studies over the past 15 years. Building on the pioneering research in the first edition, the collection reorganises historical coverage of the genre to emphasise new geographical areas of cultural production and the growing importance of media beyond print. It also updates and expands the range of frameworks that are relevant to the study of science fiction. The periodisation has been reframed to include new chapters focusing on science fiction produced outside the Anglophone context, including South Asian, Latin American, Chinese and African diasporic science fiction. The contributors use both well-established critical and theoretical approaches and embrace a range of new ones, including biopolitics, climate crisis, critical ethnic

studies, disability studies, energy humanities, game studies, medical humanities, new materialisms and sonic studies. This book is an invaluable resource for students and established scholars seeking to understand the vast range of engagements with science fiction in scholarship today. Girl Least Likely To Marry (The Wedding Season, Book 2) (Mills & Boon Modern Tempted) HarperCollins UK Quail hunting in Central Florida was supposed to be an exciting experience. But lately, for Bo Tatum, the owner of Tatum's Hunting Resort off Grange Road near Lake Azur, it had been a disaster. Instead of his dogs flushing out birds, they'd been digging up human bodies. Sheriff JD Pickens and County Medical Examiner, Dr. Marge Davids, were planning a festive holiday season. But their plans were put on hold thanks to Tatum's discoveries. Undermanned and ill-equipped in a city and county where such things rarely happened, Pickens and Davids will need to muster all the ingenuity they can to solve the mysteries of the bodies, including getting help from an expert in forensic science. With clues scarce and few leads, Pickens and Davids had to rely on unconventional methods as a last resort. When tempers started to flare during the investigations, Pickens had to use every ounce of patience he

could muster to stay calm and in control.

Leading change is not about breaking things - it's about using empathy to enrich the world. In Empathy for Change: How to Create a More Understanding World, former White House entrepreneur-in-residence Amy J. Wilson dives into the intricate science of empathy, debunking common myths and sharing practical uses for a better society. Having built cultures of innovation and change across multiple sectors, she knows that when we do not design with compassion, we remove the humanity and closeness we have to one another. This book touches on: How and why compassion can fuel real change despite its misconceptions Why change is more difficult in the 21st century and what we must do to instill human connection How power, culture, and systems shape our reality and how they can be redesigned What should be combined with empathy to make true positive impact And more! If you are looking for a toolkit to transform the places you live, work and play, this is it. Empathy for Change is the essential guidebook for

developing kindness and learning to use it to make a more understanding and equitable future.

One Night Forever White Lion Publishing

The bestselling author of *Encyclopedia of an Ordinary Life* returns with a literary experience that is unprecedented, unforgettable, and explosively human. Ten years after her beloved, groundbreaking *Encyclopedia of an Ordinary Life*, #1 New York Times bestselling author Amy Krouse Rosenthal delivers a book full of her distinct blend of nonlinear narrative, wistful reflections, and insightful wit. It is a mighty, life-affirming work that sheds light on all the ordinary and extraordinary ways we are connected. Like she did with *Encyclopedia of an Ordinary Life*, Amy Krouse Rosenthal ingeniously adapts a standard format—a textbook, this time—to explore life's lessons and experiences into a funny, wise, and poignant work of art. Not exactly a memoir, not just a collection of observations, *Textbook* Amy Krouse Rosenthal is a beautiful exploration into the many ways we are connected on this planet and speaks to the awe, bewilderment, and poignancy of being alive. "...a

groundbreaking new twist on the traditional literary experience... *Textbook* is a delightful collection of interesting scenarios that directly point to life lessons. Rosenthal manages to spotlight grand moments and everyday moments with equal curiosity, proving that it can be both a privilege — and petrifying — to peek into one's humanity." —Associated Press "Rosenthal is a marvel... a talented storyteller with an experimental flair for formatting... This engaging, playful, and clever glimpse into one woman's life offers lots of photographs, graphic illustrations, and diagrams, resulting in a book that will make readers smile as their notions of story delivery expand." —Booklist
Tales from the Back Row C. Gockel
The story of Marcus Garvey's first wife, Amy Ashwood. Although the two were divorced in 1922, Ashwood never accepted the divorce and pursued him relentlessly until his death. She became an important Pan-Africanist in her own right, becoming a central figure in the anti-racist movement in England.

Dr. Jake Ross, a university astronomer, wants nothing more than to teach a few classes each semester and

continue on his research. However, he is being aggressively recruited to be the science advisor to Frank Tomlinson, an ambitious politician with his eye on the US Senate. Tomlinson is in need of an edge that will allow him to defeat his opponent at the polls, and Dr. Ross can contribute just that: MHD. MHD, or magnetohydrodynamics, is a new innovation that will allow electricity to be generated efficiently and cheaply. The senate is essentially guaranteed if Tomlinson can deliver unlimited energy to voters at less than half the price of nuclear power. But MHD is still in its infancy, and although the outlook is extremely promising there are great—and deadly—risks. The incumbent senator will not give up his seat without a fight, and as Dr. Ross discovers, the world of politics carries its own dangers. Nothing has prepared Dr. Ross for the extreme tactics that desperate and powerful people are willing to use. *Power Play* is a timely thrill-ride by Ben Bova, one of science fiction's most respected novelists. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Changing the world--or at

least your corner of it--is easier than you think. With so much suffering in our communities and in the world, it can feel impossible to make an impact. "What good can I possibly do?" we ask. Amy Wolff, a busy mom and small business owner, often felt this way--and didn't feel qualified to connect and uplift others. But one day, after hearing about several suicides and suicide attempts in her community, she printed 20 yard signs with hopeful messages and anonymously placed them throughout her city. This small action sparked a global movement of encouragement, hope, and love, which spread to 50 states and 27 countries in just 18 months. *Signs of Hope* is an intimate collection of stories from Amy's personal life, as well as people impacted by the movement, about the power of hope and love in the midst of suffering. This book discusses: The drain of compassion fatigue Why we should show up imperfectly to help others How to claim hope for ourselves Practical ideas of how to respond to suffering Strategies of how to love people who are "different" Resilience when love-spreading efforts backfire How to raise a compassionate generation The science of hope *Signs of Hope* is your

catalyst for doing something today . . . because there's no perfect time to help others. The time is now.

The reigning consensus holds that the combination of free markets and democracy would transform the third world and sweep away the ethnic hatred and religious zealotry associated with underdevelopment. In this revelatory investigation of

the true impact of globalization, Yale Law School professor Amy Chua explains why many developing countries are in fact consumed by ethnic violence after adopting free market democracy. Chua shows how in non-Western countries around the globe, free markets have concentrated starkly disproportionate wealth in the hands of a resented ethnic minority. These “ market-dominant minorities ” – Chinese in Southeast Asia, Croatians in the former Yugoslavia, whites in Latin America and South Africa, Indians in East Africa, Lebanese in West Africa, Jews in post-communist Russia – become objects of violent hatred. At the same time, democracy empowers the impoverished majority, unleashing ethnic demagoguery, confiscation, and sometimes genocidal revenge. She also argues that the United States has become the world ’ s most visible market-dominant minority, a fact that helps explain the rising tide of anti-Americanism around the world. Chua is a friend of globalization, but she urges us to find ways to spread its benefits and curb its most destructive aspects. Signs of Hope Taylor & Francis Includes music.
