"A gripping and poignant memoir."—Kirkus In this powerful and unforgettable memoir, award-winning writer Amy Butcher examines the shattering consequences of failing a friend when she felt he needed one most. Four weeks before their college graduation, twenty-one-year-old Kevin Schaeffer walked Amy Butcher to her home in their college town of Gettysburg, Pennsylvania. Hours after parting ways with Amy, he fatally stabbed his ex-girlfriend, Emily Silverstein. While he was awaiting trial, psychiatrists concluded that he had suffered an acute psychotic break. Although severely affected by Kevin's crime, Amy remained devoted to him as a friend, believing that his actions were the direct result of his untreated illness. Over time, she became obsessed—determined to discover the narrative that explained what Kevin had done. The tragedy

deeply shook her concept of reality, disrupted her sense of right and wrong, and dismantled every conceivable notion she'd established about herself and her relation to the world. Eventually realizing that she would never have the answers, or find personal peace, unless she went after it herself, Amy returned to Gettysburg—the first time in three years since graduation—to sift through hundreds of pages of public records: mental health evaluations, detectives' notes, inventories of evidence, search warrants, testimonies, and even Kevin's own confession. *Visiting Hours* is Amy Butcher's deeply personal, heart-wrenching exploration of how trauma affects memory and the way a friendship changes and often strengthens through seemingly insurmountable challenges. Ultimately, it's a testament to the bonds we share with others and the profound resilience and strength of the human spirit.

Finding Peace with a Devastating

Disease Entangled: Amara

From the interior of the Sun, to the upper

atmosphere and near-space environment of Earth, and outward to a region far beyond Pluto where the Sun's influence wanes, advances during the past decade in space physics and solar physics—the disciplines NASA refers to as heliophysics—have yielded spectacular insights into the phenomena that affect our home in space. Solar and Space Physics, from the National Research Council's (NRC's) Committee for a Decadal Strategy in Solar and Space Physics, is the second NRC decadal survey in heliophysics. Building on the research accomplishments realized during the past decade, the report presents a program of basic and applied research for the period 2013-2022 that will improve scientific understanding of the mechanisms that drive the Sun's activity and the fundamental physical processes underlying near-Earth plasma dynamics, determine the physical interactions of Earth's atmospheric layers in the context of the connected Sun-Earth system, and enhance greatly the capability to provide realistic and specific forecasts of Earth's space environment that will better serve the needs of society. Although the recommended program is directed primarily at NASA and the National Science Foundation for action, the report also recommends actions by other federal agencies, especially the parts of the National Oceanic and Atmospheric Administration charged with the day-to-day (operational) forecast of space weather. In addition to the recommendations included in this summary, related recommendations are presented in this report.

These are stories rooted in Kansas soil, in country roads and small towns, in characters you swear you have met before, men and women who tug at your heart and get under your skin. The landscape where they live is both familiar and exotic, deeply felt and vividly described, from a writer clearly at home in the natural world. *Save Your Own Life* is a strong and satisfying collection, with language that can punch you in the solar plexus—just the right phrase, just what you have always known. -Sharman Apt Russell, author of *Standing in the Light: My Life as a Pantheist* and *Hunger: An Unnatural History* In *Save Your Own Life* Amy Sage Webb establishes herself as a major Midwestern voice who is not afraid to both love and critique the people of her region. Webb cares about her characters, and she instills them with personality and heart—and with needs we can both feel and understand. She knows the world of work, and what she turns her narrative lens upon teaches us something about who we are and how we can live: fully, completely, intentionally. Her characters' struggles—for love, for appreciation, for success—mirror our own. Webb is a writer who knows her stuff. From the details within her stories to the architecture of story itself, her

hand is steady, her gaze is sure. -Kevin Rabas, author of *Bird's Horn*, Lisa's Flying Electric Piano, Spider Face Reading Amy Sage Webb is a delight. *Save Your Own Life* is full of mismatched people attracting and repelling each other. Brothers are in love with the same woman at different times. An LA artist and KC food writer meet in his mis-built studio. The husband of a mentally ill woman remains "fixed and ever-blooming," like dreams doomed in a desert. In "The Memory of Water" a woman older than any in her veterinary class has the task of running donor horses until they die, but dealing with death brings her warmth and romance. "The Wedding Gift" is a gift in itself. The robust stories in *Save Your Own Life* are full of surprises, are clear, open and singing all through. -Thomas Fox Averill, author of *rode* and *Secrets of the Tsil Cafe*

You've Got Mail meets How to Eat a Cupcake in this delightful novel about a talented chef and the food critic who brings down her restaurant—whose chance meeting turns into a delectable romance of mistaken identities. In downtown Milwaukee, Wisconsin, Lou works tirelessly to build her beloved yet struggling French restaurant, Luella's, into a success. She cheerfully balances her demanding business and even more demanding fiancé...until the morning she discovers him in the buff—with an intern. Witty yet gruff British transplant Al is keeping himself employed and entertained by writing scathing reviews of local restaurants in the Milwaukee newspaper under a pseudonym. When an anonymous tip sends him to Luella's, little does he know he's arrived on the worst day of the chef's life. The review practically writes itself: underdone fish, scorched sauce, distracted service—he unleashes his worst. The day that Al's mean-spirited review of Luella's runs, the two cross paths in a pub: Lou drowning her sorrows, and Al celebrating his latest publication. As they chat, Al playfully challenges Lou to show him the best of Milwaukee and she's game—but only if they never discuss work, which Al readily agrees to. As they explore the city's local delicacies and their mutual attraction, Lou's restaurant faces closure, while Al's column gains popularity. It's only a matter of time before the two fall in love...but when the truth comes out, can Lou overlook the past to chase her future? Set in the lovely, quirky heart of Wisconsin, *The Coincidence of Coconut Cake* is a charming love story of misunderstandings, mistaken identity, and the power of food to bring two people together. Trespass is the story of one woman's struggle to gain footing in inhospitable territory. A

wilderness activist and apostate Mormon, Amy Irvine sought respite in the desert outback of southern Utah's red-rock country after her father's suicide, only to find out just how much of an interloper she was among her own people. But more than simply an exploration of personal loss, *Trespass* is an elegy for a dying world, for the ruin of one of our most beloved and unique desert landscapes and for our vanishing connection to it. Fearing what her father's fate might somehow portend for her, Irvine retreated into the remote recesses of the Colorado Plateau—home not only to the world's most renowned national parks but also to a rugged brand of cowboy Mormonism that stands in defiant contrast to the world at large. Her story is one of ruin and restoration, of learning to live among people who fear the wilderness the way they fear the devil and how that fear fuels an antagonism toward environmental concerns that pervades the region. At the same time, Irvine mourns her own loss of wildness and disconnection from spirituality, while ultimately discovering that the provinces of nature and faith are not as distinct as she once might have believed.
