The book advertised as a sequel to Flatland but lacks everything Flatland has. There is basically no plot, except some bare bone stuff to lead from one explanation of dimensional concepts to the next (what is intended to hold the semi-essays together is Vikkie Line a grand-grand-child of Abotts A.Sphere from Flatland...

"Like Flatland only more so" is the cover claim of the new book by my friend Ian Stewart, and, like most Flatland purists, I was very skeptical when I first encountered that description. But I ended up by writing a recommendation for the back cover that fairly accurately but slightly incompletely registers my evaluation: "Flutterland challenges readers to go beyond Flatland and deal with ...
