Wind, Sand and Stars Mariner Books

Antoine de Saint-Exupéry's timeless tale, reissued in a beautiful clothbound edition designed by Coralie Bickford-Smith. Antoine de Saint-Exupéry first published *The Little Prince* in 1943, only a year before his plane vanished over the Mediterranean during a reconnaissance mission.

Nearly eighty years later, this fable of love and loneliness has lost none of its power. The narrator is a downed pilot in the Sahara Desert, frantically

trying to repair his wrecked plane. His efforts are interrupted one day by the apparition of a little prince, who asks him to draw a sheep. "In the face of an overpowering mystery, you don't dare disobey," the narrator recalls. "Absurd as it seemed, a thousand miles from all inhabited regions and in danger of death, I took a scrap of paper and a pen out of my pocket."

And so begins their dialogue, which stretches the narrator's imagination in all sorts of surprising, childlike directions.

Lamotte. "Flight to Arras" is a memoir by French author Antoine de Saint-Exupéry.

Written in 1942, it recounts his role in the French Air Force as pilot of a

reconnaissance plane during the Battle of France in 1940.

The book condenses months of flights into a single terrifying mission over the town of Arras. Saint-

Exupéry was assigned to Reconnaissance Group II/33

flying the twin-engine Bloch MB.170. At the start of the

war there were only fifty reconnaissance crews, of which twenty-three were in his unit. Within the first few days of the German invasion of France in May 1940, seventeen of the II/33 crews were sacrificed recklessly, he writes "like glasses of water thrown onto a forest fire." Saint-Exupéry survived the French defeat but refused to join the Royal Air Force over political differences with de Gaulle and in late 1940 went to New York where he accepted the National Book Award for "Wind, Sand and Stars." He remained in North America for two years, and then in the spring of 1943 rejoined his old unit in North Africa. In July 1944, "risking flesh to prove good faith," he failed to return from a reconnaissance mission over France."

Flight to Arras Skyhorse

Three award-winning works of adventure, survival, and the early days of aviation from the celebrated author of *The Little Prince*, collected in one volume. Ranging from the northern skies of France to the South American Andes, this volume includes two memoirs and a novel, each informed by the lauded pilot and poet's experiences as a pioneering aviator during World War II. *Wind, Sand and Stars* Recounting his early days flying airmail routes across the African Sahara, Saint-Exupéry explores the spiritual, philosophical, and

physical wonders of navigating the passes of the Pyrenees, the peaks of the Andes, and the wasteland of the Libyan desert. This memoir, a National Book Award winner that was voted a National Geographic Top Ten Adventure Book of All Time, is "a beautiful book, a brave book, and a book that should be read against the confusion of this world" (*The New York Times*). *Night Flight* Overseeing night-mail flights in Buenos Aires, Riviere is a believer in remaining faithful to the mission and has trained his pilots to stave off the fear of death. But when he discovers that one of his planes is lost in a storm after flying out of Patagonia, both his authority and his beliefs will be challenged, in a novel that won France's Prix Femina Award and was made into a classic film.

Flight to Arras Saint-Exupéry's memoir of a harrowing reconnaissance mission during the Battle of France in 1940—as one of only a handful of pilots who continued to fight in solidarity against the inevitable German invasion—was a recipient of the Grand Prix Littéraire de l'Aéro-Club de France. "Saint-Exupéry . . . blends adventure with reflection in a way few writers have."

—Richard Bach Translated by Lewis Galantière and Stuart Gilbert

The book summarizes months of flight in a single mission over the city of Arras. Saint-Exupéry was assigned to Reconnaissance Group II / 33 to fly the twin-engine Potez 637. At the start of the war there were only fifty reconnaissance crews, of which twenty-three were in his unit.

Within the first days of the German invasion of France in May 1940, seventeen of the crews were recklessly euthanized, he wrote: like glasses of water thrown on a forest fire. About the

Author: Antoine de Saint-Exupéry, author of *The Little Prince*, was born in Lyon, France, in 1900, and died on the island of Riou, France as well, in 1944. He was an aviator and writer. Part of his experience as a pilot inspired him to write *The Little Prince*. Most of his literary production was written during his exile in the United States, a country to which he was assigned with the mission of convincing the American government to declare war on Germany during World War II.

Antoine de Saint-Exupéry Farrar, Straus and Giroux (BYR)
Fasten your seatbelt to experience the spectacle and solitude of flying high in the Andes in this novel from the author of *The Little Prince*. No writer has

equaled Saint-Exupéry in describing the perilous and poetic experience of flying, in submission to what he calls “those damn elemental divinities—night, day, mountain, sea and storm.” In this gripping, beautifully written novel inspired by his experience as a pilot in South America, he tells of the brave men who pilot night mail planes from Patagonia, Chile, and Paraguay to Argentina in the early days of commercial aviation. They are impelled to perform their routine acts of heroism by a steely chief named Rivière, whose extraordinary character is revealed through the dramatic events of a single night. Preface by André Gide. Translated by Stuart Gilbert. “The book stands out by reason of the quality of its style, the beauty of the passages in which flight is described better than it ever has been before, but more especially because of the emotions of the men of heroic mold.”—André Maurois, *Saturday Review*

Wartime Writings, 1939-1944 Penguin Classics

Peter Sís's remarkable biography *The Pilot and the Little Prince* celebrates the author of *The Little Prince*, one of the most beloved books in the world. Antoine de Saint-Exupéry was born in France in 1900, when airplanes were just being invented. Antoine dreamed of flying and grew up to be a pilot—and that was when his adventures began. He found a job delivering mail by plane, which had never been

done before. He and his fellow pilots traveled to faraway places and discovered new ways of getting from one place to the next. Antoine flew over mountains and deserts. He battled winds and storms. He tried to break aviation records, and sometimes he even crashed. From his plane, Antoine looked down on the earth and was inspired to write about his life and his pilot-hero friends in memoirs and in fiction. Antoine de Saint-Exupéry, an intrepid and eccentric adventurer, transferred his passion for flying to the written word by writing several classics of aviation literature, including *Southern Mail and Night Flight*. Based on Saint-Exupéry's trail-blazing flights for the French airmail service over the Sahara and later, the Andes, these two novels evoke the tragic courage and nobility of the airborne pioneers who took enormous risks, flying in open cock-pits in planes that were often fragile and unstable.”

A Guide for Grown-ups HMH

From a master biographer, the life story of the daring French aviator who became one of the twentieth century's most beloved authors Antoine de Saint-Exupéry disappeared at age forty-four during a reconnaissance flight over southern France. At the time he was best known for a career of daring flights over the Sahara, the Pyrenees, and Patagonia and for his contributions to the science of aviation. But the solitary hours he spent above the earth in open cockpit airplanes gave birth to a more famous legacy, a series of enchanting, autobiographical novels and the classic story *The Little Prince*, still the most translated book in the French language. An impoverished aristocrat from one of France's oldest families, Saint-Exupéry moved at age twenty-seven to the western Sahara Desert, to live alone in a plank shack and manage the way station for the

Aéropostale, the French mail service. His careers as a novelist and an aviator were born here, and his life once he returned to Europe was defined--with brilliant and catastrophic results--by the sense of isolated fascination and curiosity he developed in the desert. In this definitive biography, Pulitzer Prize winner Stacy Schiff reveals an intrepid and unconventional life that rivals the best adventure stories.

Letter to a Hostage London : Cassell

In writing this book my collaborator and I had two aims in view. Firstly, to shed some light on the life and ideas of a complex, gifted and fascinating individual; a man whose life was packed with adventure, both in the realms of action and in the realms of thought; who was pioneer airman, writer, poet, philosopher, administrator, mathematician, scientist and practical inventor. Secondly, and in so doing, to say something about that relatively new discovery -- flying; about the psychology of the airman; and about the beauty and interest of his profession.
