The two volumes of the Learning to Photograph series give students and interested amateur photographers essential information about technique and design as well as an understanding of the big concepts of photography. This first volume brings readers up to speed on the basics of camera technology: optics and exposure. The authors provide an overview of these technical elements before going into detail about how cameras and lenses work and how they influence one another. Building upon this foundation, the authors discuss the practical application of this knowledge, showing readers how to put this information to use to create images and realize ideas effectively. The numerous example photos and informational graphics not only illustrate the concepts at hand, but also make the lessons visually pleasing and offer inspiring templates for readers to imitate in their own craft. Topics include: Optics and lenses Exposure metering and control Image sensors, viewfinders, and displays Live view and video functionality Flash units and additional accessories The right camera Photo technology in practice The subsequent volume in the Learning to Photograph series addresses visual concepts and composition.

During our doomed near future... In the center of the world, in the center of the galaxy; San Tropez Nebraska, is being attacked by biblical floods, Rock n' Roll country pop stars, and its own 'Super heroes.' With the entire planet unaware of the mass-media brainwash, people are enslaved by television and the evolved version of Internet, the Outternet. Their bodies left to mimic a shell of a life they believe coincides with 'reality.' But 3 young boys are the last defenders of existence's greatest kept secret, the Power of Pi. Though they remember nothing before the birth of their powers, they will test their dynamism, friendship and the limits of conscious reality. These strange pajama wearing heroes will be the only hope to getting in the way of the Tube, and slap our stupid slobbering faces awake, out of the dream we have fallen into. That is, if the most powerful being in the Multiverse, will allow it...
