"HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback.

Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave

them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

Gathering together the most outstanding short stories of Susan Palwick's twenty-year literary career, *The Fate of Mice* is a powerful collection from an extraordinary fantasist. These unflinching tales, including three original pieces, consider a woman born with her heart exposed and the heartless killer who protects her, a wolf who is willingly ensnared by a devious academic, a businessman resurrected to play at politics, and an ingenious mouse dreaming beyond the laboratory. With the perceptiveness of Joyce Carol Oates, the inventiveness of Ray Bradbury, and the emotional resonance of Alice Sebold, *The Fate of Mice* is a meditation on the very art of storytelling: mythic, beautiful, and often brutal, filled with authentic compassion.

A man makes the ultimate sacrifice to find the man he loves in this "magical . . . entertaining cross-genre tale" from the World Fantasy Award-winning author (*Library Journal*). In the future, cancer has been eliminated on Earth. Despite his diagnosis, celebrated artist Jimson Alleca can live peacefully for another twenty years if he stays on the planet to receive his medication. But Jimson does not want peace; he wants love. Even though it will shorten his lifespan, giving him one single year more, Jimson leaves space-normal to enter "the Hype," a shimmering space outside of space. He goes in search of his former lover, the star captain Russell O'Neill. What he finds is enough adventure and freedom to fill a lifetime. With *A Different Light*, author Elizabeth A. Lynn has changed the face of science fiction by depicting a homosexual relationship not as taboo or fantastical but as a normal aspect of everyday life, around which the fantasy and adventure gets built. Since the novel's first publication in 1978, readers have loved its depth of prose, its clarity of emotion, and its thrilling adventure. It is no wonder Lynn is a multiple World Fantasy

Rachel Whitman has everything. She's young, attractive, and affluent. Her husband is the brilliant CEO of his own company. They have a big new house in a flossy Boston suburb. They have all the brand-name "toys" that go along with wealth. And they have a gorgeous, sweet little six-year-old son named Dylan. But Dylan has learning disabilities. Although intelligence isn't everything, Rachel lives in a community where the rewards for brainpower are conspicuous. She fears

her son will grow up never fully appreciating the wonders of life. Like so many middle-class parents who would do anything to improve life for their children—whether it means fixing hair, teeth, or nose—Rachel cannot accept that her child is less than perfect. Tortured by the idea that something she did in the past caused Dylan's problems, Rachel becomes obsessed with a secret and expensive medical procedure that claims to turn slow children into geniuses. Should she and her husband sacrifice their new fortune on the risky, experimental procedure for the sake of their son's happiness? Unaware of the real consequences of the brain enhancement procedure, Rachel can't know that the costs of the operation go far beyond financial ones. Risk everything . . . for love with this #1 New York Times bestseller. What if you couldn't touch anything in the outside world? Never breathe in the fresh air, feel the sun warm your face . . . or kiss the boy next door? In *Everything, Everything*, Maddy is a girl who's literally allergic to the outside world, and Olly is the boy who moves in next door . . . and becomes the greatest risk she's ever taken. My disease is as rare as it is famous.

Basically, I'm allergic to the world. I don't leave my house, have not left my house in seventeen years. The only people I ever see are my mom and my nurse, Carla. But then one day, a moving truck arrives next door. I look out my window, and I see him. He's tall, lean and wearing all black—black T-shirt, black jeans, black sneakers, and a black knit cap that covers his hair completely. He catches me looking and stares at me. I stare right back. His name is Olly. Maybe we can't predict the future, but we can predict some things. For example, I am certainly going to fall in love with Olly. It's almost certainly going to be a disaster. *Everything, Everything* will make you laugh, cry, and feel everything in between. It's an innovative, inspiring, and heartbreakingly romantic debut novel that

unfolds via vignettes, diary entries, illustrations, and more. And don't miss Nicola Yoon's *The Sun Is Also A Star*, the #1 New York Times bestseller in which two teens are brought together just when it seems like the universe is sending them in opposite directions.
