Jack Worthing gets antsy living at his country estate.

As an excuse, he spins tales of his rowdy brother Earnest living in London. When Jack rushes to the city to confront his "brother," he's free to become Earnest and live a different lifestyle. In London, his best friend, Algernon, begins to suspect Earnest is leading a double life. Earnest confesses that his real name is Jack and admits the ruse has become tricky as two women have become enchanted with the idea of marrying Earnest. On a whim, Algernon also pretends to be Earnest and encounters the two women as they meet at the estate. With two Earnests who aren't really earnest and two women in love with little more than a name, this play is a classic comedy of errors. This is an unabridged version of Oscar Wilde's English play, first published in 1899.

"Highly recommended reading for those hungry for surprise" (A.J. Jacobs, New York Times bestselling author)—a rollicking collection of personal stories and essays on relationships, technology, and contemporary society from the news editor at *Funny or Die* and former artistic director at the Upright Citizens Brigade Theater. This hilarious collection of essays spans a wide variety of topics. There's the open letter to Charles

Manson, a brave archeologist's journey into a suburban man cave, and a long overdue, sternly worded letter from Leif Erikson to Christopher Columbus. Walt Whitman even teaches a spin class. Nate Dern's razor-sharp eye examines modern society and technology, man buns, dating apps, and juicing crazes. Anyone who's ever scrunched their eyes at WiFi Terms & Conditions, listened to the reasons that led a vegetarian to give up meat, or looked on in horror at the evolving audacity of reality TV will appreciate Dern's wicked and funny take on modern life. Not Quite a Genius is fun, and funny, "a breath of fresh air that you can eat up bit by bit or all at once" (Abbi Jacobson, cocreator and star of *Broad City*).

The Curious Incident of the Dog in the Night-Time Sadashiva Bolanthur

During the late Victorian period, Charles Darwin's theories took the world by storm, and the impact of evolution on research into the developing human mind was impossible to overlook. Thereafter the study of children and childhood became a means to theorize, imagine, and apply the concept of evolution in a broad range of cultural productions.

Beginning with the watershed Victorian era, *From Alice to Algernon: The Evolution of Child Consciousness in the Novel* examines the creative transformation these theories underwent as they filtered through the modern novel, especially those that examined the mind of the child. By examining the connection between authors and trends in child psychology, author Holly Blackford explains why many modern novels began to focus on child cognition as a site for intellectual and artistic exploration. In each chapter of this book, select novels of the late-nineteenth or twentieth century are paired with a specific moment or movement from the history of developmental psychology. Novels such as Mark Twain's *Huckleberry Finn* and Henry James's *What Maisie Knew*, or Radclyffe Hall's less-canonical *The Well of Loneliness* and even Mark Haddon's *The Curious Incident of the Dog in the Night-Time*, showcase major questions about human epistemology through their child characters. From Lewis Carroll's *Alice and her looking-glass* to Richard Wright's *Bigger* Thomas and the murder of Mary Dalton to the chaotic *Neverland*--symbolizing the unmappable child's brain--a literary tradition of child consciousness has emerged as an experimental site for the unstable concepts of evolution, civilization, and development. By situating literature about children within concurrent psychological

discourses, Blackford demonstrates how the modern novel contributed to the world's understanding of the boundless wonders and discernible limits of child consciousness. HOLLY BLACKFORD is a professor of English at Rutgers University, Camden. She is the author of *Out of this World: Why Literature Matters to Girls; Mockingbird Passing: Closeted Traditions and Sexual Curiosities in Harper Lee's Novel; The Myth of Persephone in Girls' Fantasy Literature*; and editor of *100 Years of Anne with an 'e': The Centennial Study of Anne of Green Gables and Something Complete and Great: The Centennial Study of My Ántonia*.

An alien race struggles to survive on an uninhabitable planet in this "impeccably detailed and beautifully thought out" novel from a Hugo Award winner (Kirkus Reviews, starred review). On a planet besieged with cosmic dust, where meteors of all sizes frequently hit, wiping out entire civilizations, a strange alien species struggles against extinction over the course of millennia. As their star grows hotter, melting ice caps and causing more earthquakes and volcanic eruptions, higher levels of radiation lead to higher rates of mutation. Plants that had been edible become poisonous or die off altogether. Watching their dire situation only get worse, the planet's scientists finally acknowledge that to survive long-term, the inhabitants will have to abandon their fraught home world and become a space-faring species. In a story that spans millennia, Hugo Award-winning author and British science fiction master John Brunner introduces us to an alien race that takes control of their own evolution and builds the technological society that will be their way into space. "One of the most important science fiction authors. Brunner held a mirror up to reflect our foibles because he wanted to save us from ourselves." —SF Site

SOLD! "Packed with incredible insight about what it means to be a woman today." —Reese Witherspoon (Reese's Book Club Pick) In her most revealing and powerful memoir yet, the activist, speaker, bestselling author, and "patron saint of female empowerment" (People) explores the joy and peace we discover when we stop striving to meet others' expectations and start trusting the voice deep within us.

"Untamed will liberate women—emotionally, spiritually, and physically. It is phenomenal." —Elizabeth Gilbert, author of *City of Girls* and *Eat Pray Love* A BEST BOOK OF THE YEAR: Oprah Daily, The Washington Post, Cosmopolitan, Marie Claire, Bloomberg, Parade This is how you find yourself. There is a voice of longing inside each woman. We strive so mightily to be good: good partners, daughters, mothers, employees, and friends. We hope all this striving will make us feel alive. Instead, it leaves us feeling weary, stuck, overwhelmed, and underwhelmed. We look at our lives and wonder: Wasn't it all supposed to be more beautiful than this? We quickly silence that question, telling ourselves to be grateful, hiding our discontent—even from ourselves. For many years, Glennon Doyle denied her own discontent. Then, while speaking at a conference, she looked at a woman across the room

---

and fell instantly in love. Three words flooded her mind: There She Is. At first, Glennon assumed these words came to her from on high. But she soon realized they had come to her from within. This was her own voice—the one she had buried beneath decades of numbing addictions, cultural conditioning, and institutional allegiances. This was the voice of the girl she had been before the world told her who to be. Glennon decided to quit abandoning herself and to instead abandon the world's expectations of her. She quit being good so she could be free. She quit pleasing and started living. Soulful and uproarious, forceful and tender, *Untamed* is both an intimate memoir and a galvanizing wake-up call. It is the story of how one woman learned that a responsible mother is not one who slowly dies for her children, but one who shows them how to fully live. It is the story of navigating divorce, forming a new blended family, and discovering that the brokenness or wholeness of a family depends not on its structure but on each member's ability to bring her full self to the table. And it is the story of how each of us can begin to trust ourselves enough to set boundaries, make peace with our bodies, honor our anger and heartbreak, and unleash our truest, wildest instincts so that we become women who can finally look at ourselves and say: There She Is. *Untamed* shows us how to be brave. As Glennon insists: The braver we are, the luckier we get.
