The Fluke Training Program is a comprehensive package of training materials designed for use in the classroom in conjunction with the Fluke 97/Auto ScopeMeter. this package develops a core foundation of knowledge on lab scopes. An entire program can be driven by the videotape; each procedure appears in the video. After watching a section in the video, the technician/student is instructed to stop the tape, perform the exercises, using the workbook as a guide. Each exercise in the workbook has the corresponding tape time prominently displayed along side the headline. In this way, the workbook and videotape are integrated, enabling the

technician/student to move seamlessly from tape to workbook and back again. The slides offer program enhancement. Section graphics, in addition to key steps, are highlighted by full screen graphics.
