For this Algebra II  
study, there are 9  
module pretests and  
9 module posttests  
(called a module test  
within the course).  
Each pretest  
includes 19 groups  
of banked test items  
for a total of 171  
groups. To limit  
item exposure and  
promote academic  
integrity, each  
student randomly  
receives only one  
test item from the  
bank of items in  
each group.
