The Leader in Me Simon and Schuster "The Handbook of Research on K-12 Online and Blended Learning is an edited collection of chapters that sets out to present the current state of research in K-12 online and blended learning. The beginning chapters lay the groundwork of the historical, international, and political landscape as well as present the scope of research methodologies used. Kagero Nikki, translated here as The Gossamer Years, belongs to the same period as the celebrated Tale of Genji by Murasaki Shikibu. This remarkably frank autobiographical diary and personal confession attempts to describe a difficult relationship as it reveals two tempestuous

decades of the author's unhappy marriage and her growing indignation at rival wives and mistresses. Too impetuous to be satisfied as a subsidiary wife, this beautiful (and unnamed) noblewoman of the Heian dynasty protests the marriage system of her time in one of Japanese literature's earliest attempts to portray difficult elements of the predominant social hierarchy. A classic work of early Japanese prose, The Gossamer Years is an important example of the development of Heian literature, which, at its best, represents an extraordinary flowering of realistic expression, an attempt, unique for its age, to treat the human condition with frankness and honesty. A timeless and intimate glimpse into the culture of ancient Japan, this translation by Edward Seidensticker paints a revealing picture of married life in the Heian period.

"Never before, the entire history of the American theater, has so much of the truth of black people's lives been seen on the stage," observed James Baldwin shortly before *A Raisin in the Sun* opened on Broadway in 1959. Indeed Lorraine Hansberry's award-winning drama about the hopes and aspirations of a struggling, working-class family living on the South Side of Chicago connected profoundly with the psyche of black America—and changed American theater forever. The play's title comes from a line in Langston Hughes's poem "Harlem," which warns that a dream deferred might "dry up/like a raisin in the sun." "The events of every passing year add resonance to *A Raisin in the Sun*," said *The New York Times*. "It is as if history is conspiring to make the play a classic." This Modern Library edition presents the fully restored, uncut version of Hansberry's landmark work with

an introduction by Robert Nemiroff.

This book is an attempt to tell some of the stories of King Arthur and his Knights in a way which will be interesting to every boy and girl who loves adventures. Although tales of these old British heroes have been published before in a form intended for young people, it is believed that they have never been related quite in the same spirit nor from the same point of view; and it is hoped that the book will fill a place hitherto vacant in the hearts of all boys and girls. No doubt many of you, my young readers, have at some time or another taken down the *Morte D'Arthur* from your father's bookshelves and read a few pages of it here and there. But I doubt if any

Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States.

Alexander Hamilton (c. 1755-1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

Taken from "The Talented Tenth" written by W. E. B. Du Bois:
The Negro race, like all races, is going to be saved by its exceptional men. The problem of education, then, among Negroes must first of all deal with the Talented Tenth; it is the problem of developing the Best of this race that they may guide the Mass away from the contamination and death of the Worst, in their own and other races. Now the training of men is a difficult and intricate task. Its technique is a matter for educational experts, but its object is for the vision of seers. If we make money the object of man-training, we shall develop money-makers but not necessarily men; if we make technical skill the object of education, we may possess artisans but not, in nature, men. Men we shall have only as we make manhood the object of the work of the schools—intelligence, broad sympathy, knowledge of the world that was and is, and of the relation of

men to it—this is the curriculum of that Higher Education which must underlie true life. On this foundation we may build bread-winning, skill of hand and quickness of brain, with never a fear lest the child and man mistake the means of living for the object of life.

Rosencrantz and Guildenstern Are Dead is a play which, as it were, takes place in the wings of Hamlet, and finds both humour and poignancy in the situation of the ill-fated attendant lords. The National Theatre production in April 1967 made Tom Stoppard's reputation virtually overnight. Its wit, stagecraft and verbal verve remain as exhilarating as they were then and the play has become a contemporary classic. 'One of the most original and engaging of post-war plays.'

Differentiated supervision is an approach to supervision that provides teachers with options about the kinds of supervisory and evaluative services they receive. The differentiated model provides intensive development to nontenured teachers and to tenured teachers with serious problems.

The rest of the faculty receive options for fostering their professional development, working in collaborative teams or opting for a self-directed approach. This book describes a model of differentiated supervision and offers suggestions for its implementation. Chapter 1 presents a rationale for differentiated supervision and briefly describes its components. Chapter 2 explains the foundation elements needed by all teachers to make the model work effectively. The third chapter describes processes for fostering the learning-centered classroom, with a focus on learning outcomes. Chapters 4 through 6 explain how each of the following developmental options works: providing intensive professional development; fostering cooperative professional development; and facilitating self-directed development. The seventh chapter focuses on the evaluative options in a differentiated system, which distinguishes between two types of evaluation--intensive evaluation and standard evaluation. The final chapter offers suggestions for developing local models appropriate to an individual district's needs and resources. Contains 11 figures and an appendix listing schools using the differentiated model. References accompany each chapter. (LMI)
