A Nature Book of the Year (The Times (UK)) “ The hoverflies are only props. No, not only, but to some extent. Here and there, my story is about something else. ” A mesmerizing memoir of extraordinary brilliance by an entomologist, **The Fly Trap** chronicles Fredrik Sjöberg ’ s life collecting hoverflies on a remote island in Sweden. Warm and humorous, self-deprecating and contemplative, and a major best seller in its native country, **The Fly Trap** is a meditation on the unexpected beauty of small things and an exploration of the history of entomology itself. What drives the obsessive curiosity of collectors to catalog their finds? What is the importance of the hoverfly? As confounded by his unusual vocation as anyone, Sjöberg reflects on a range of ideas—the passage of time, art, lost loves—drawing on sources as disparate as D. H. Lawrence and the fascinating and nearly forgotten naturalist René Edmond Malaise. From the wilderness of Kamchatka to the loneliness of the Swedish isle he calls home, Sjöberg revels in the wonder of the natural world and leaves behind a trail of memorable images and stories.

Winner of the National Outdoor Book Award for Natural History and a New York Times Editors Choice Pick "After reading **Super Fly**, you will never take a fly for granted again. Thank you, Jonathan Balcombe, for reminding us of the infinite marvels of everyday creatures." —Sy Montgomery, Author of **How to Be a Good Creature** From an expert in animal consciousness, a book that will turn the fly on the wall into the elephant in the room. For most of us, the only thing we know about flies is that they're annoying, and our usual reaction is to try to kill them. In **Super Fly**, the myth-busting biologist Jonathan Balcombe shows the order Diptera in all of its diversity, illustrating the essential role that flies play in every ecosystem in the world as pollinators, waste-disposers, predators, and food source; and how flies continue to reshape our understanding of evolution. Along the way, he reintroduces us to familiar foes like the fruit fly and mosquito, and gives us the chance to meet their lesser-known cousins like the Petroleum Fly (the only animal in the world that breeds in crude oil) and the Chocolate Midge (the sole pollinator of the Cacao tree). No matter your outlook on our tiny buzzing neighbors, **Super Fly** will change the way you look at flies forever. Jonathan Balcombe is the author of four books on animal sentience, including the New York Times bestselling **What A Fish Knows**, which was nominated for the PEN/E.O. Wilson Award for Science Writing. He has worked for years as a researcher and educator with the Humane society to show us the consciousness of other creatures, and here he takes us to the farthest reaches of the animal kingdom.
