Amy Karch has found
that students learn

best when concepts
are built upon each
other, growing from
simple to complex,
building on a
foundation of
understanding.
Organized by body
systems, this heavily
illustrated book
organizes essential
nursing pharmacology
information into
focused, easy-to-
learn steps. Building
key concepts upon
each other, the text
gives students a
solid foundation of

understanding. Easy
to understand drug
prototype boxes are
integrated as well as
integrated content
summaries. The fifth
edition includes a
completely revamped
art program with more
images depicting drug
actions than any of
the book's
competitors. The
fifth edition also
underwent major
reorganization to
streamline the very
functional "Focus on"
theme for drug use

across the lifespan, cultural and gender considerations, evidence-based practice, patient teaching, herbal and alternative therapies and dosage calculations; a new box, "Focus on Safe Medication Administration;" and totally revamped "Drugs in Focus" table for each classification of drugs. Focused content and focused features equal a focused student. In addition, we've expanded and updated content on psychiatric agents (includes new indications, cautions and precautions), and significantly expanded information on AIDS and therapeutic management. Drug discussions include therapeutic actions and indications, pharmacokinetics, contraindications and cautions and adverse effects. Detailed rationales are presented throughout. Each chapter opens with Learning Objectives and a Glossary of Key Terms, and ends with NCLEX-style questions, and contains a case study-based critical thinking exercise that sets up a situation, shows critical thinking, and then presents a discussion and case-based nursing care

guide. Features like documentation this make the book an guidelines and essential teaching samples, and tool. Lippincott's Unexpected Photo Atlas of Situations, which Medication explain how to Administration comes respond to with this text. Photo unanticipated Atlas uses the outcomes. Topics nursing process include removing format to provide medication from an step-by-step nursing ampule, removing skills (with medication from a rationales). In vial, mixing addition to being medications from two completely vials in one syringe, illustrated, the administering an Photo Atlas also intradermal contains injection, and more.

Abrams' Clinical Drug Therapy Lww

Highly praised for its clear organization and approachable presentation,

Abrams' Clinical Drug Therapy, Twelfth Edition continues a long tradition of guiding students and instructors through the practice of safe and effective medication administration. Expert pharmacology educators and clinicians explain the “why” behind each nursing action and emphasize individualized nursing care and drug therapy to promote optimal outcomes in every care setting. This updated edition is filled with case studies, concept maps, and other engaging features,

and is complemented by robust online resources that reinforce understanding and establish a solid foundation for success from the classroom to the NCLEX® to clinical practice.

Fundamentals of Nursing + Coursepoint + Clinical Calculations Made Easy, 5th Ed. + Focus on Nursing Pharmacology, 6th Ed. + Coursepoint

Prentice Hall
Current, concise, and optimized for today's nursing practice, Focus on Nursing Pharmacology makes challenging concepts more approachable to establish a foundation for effective drug therapy throughout your nursing career. This updated 8th edition builds on your

knowledge of physiology, chemistry and nursing fundamentals to help you conceptualize need-to-know information about each group of drugs, while engaging learning features cultivate your clinical application, critical thinking and patient education capabilities. New! Concept Mastery Alerts alert you to commonly misunderstood concepts. New! Unfolding case-based vignettes written by the National League for Nursing bring concepts to life through realistic clinical scenarios. Concise, streamlined approach emphasizes need-to-know

information for efficient learning. Nursing Processes clarify the process for planning patient-centered care. Critical Thinking Scenarios guide you through the collection and application of data for commonly encountered clinical interactions. Nursing Considerations sections detail the rationale behind each nursing intervention to enhance your clinical decision-making capabilities. Drug Lists at the beginning of each chapter enable fast identification of prototype drugs for each class. Drugs in Focus tables provide at-a-glance reference for

generic and trade names, usual dosage and indications for each drug within a class. Focus on Safe Medication Administration boxes help you ensure patient safety and increase the therapeutic effectiveness of drugs. Focus on the Evidence boxes identify the best nursing practices associated with specific drugs based on available evidence. Focus on Herbal and Alternative Therapies alert you to known interactions with specific herbs or alternative therapies that could affect drug actions. Focus on Calculations refine your calculation and

measurement skills. Focus on Drug Therapy Across the Lifespan boxes provide quick access to drug class considerations for use with children, adults and the elderly. Focus on Gender Considerations and Focus on Cultural Considerations help you ensure effective, culturally sensitive drug therapy across diverse populations. Check Your Understanding sections equip you for your exams with NCLEX®-style review questions, including alternate-format questions. Watch and Learn videos available on thePoint® help you avoid

medication errors in practice.

This comprehensive, up-to-

date text introduces
pharmacology from an
interdisciplinary perspective,
illuminating core concepts of
anatomy, physiology, and
pathology that make drug
therapy understandable to all
nursing students. Organized
around body systems and
diseases, it clearly places each
drug in context. Its focused
nursing content includes easy-
to-read flowcharts that
illuminate assessment,
diagnosis, planning,
interventions, patient education,
discharge planning, and
evaluation. This edition
contains new chapters on the

nursing process and drugs for degenerative diseases and muscles; new Safety Alerts; new coverage of weight loss surgery and drugs; revamped NCLEX-PN® questions; a brand-new glossary, and many other improvements. Some new features to this edition include: New! Full chapter on the nursing process New! All-new chapter on drugs for degenerative diseases and muscles New! Safety Alerts call attention to medication errors and Joint Commission safety guidelines Updated! End-of-chapter NCLEX-PN® questions completely revamped

to reflect the latest practice New! Scenario-based Case Study Questions help students apply pharmacology and nursing care to specific clients and circumstances
Clinical Nursing Skills, 3rd Ed. + Maternal and Child Health Nursing, 6th Ed. + Nutrition Essentials for Nursing Practice, 6th Ed. + Focus on Nursing Pharmacology, 5th Ed. + Clinical Nursing Skills, 7th Ed. + Med-Math, 7th Ed.
Effectively learning pharmacology requires students to clearly see the connection between pharmacology, disease and patient care. Pharmacology for Nurses, 3e i(this is the

standalone book) is structured to present pharmacology and pathology together, so students can more easily grasp the interrelationship between these subjects and provide a holistic perspective to patient care. A prototype approach, easy to follow presentation and extensive pedagogical aids enable students to understand key concepts and apply essential components of nursing care to drug therapy. Memorize the pharmacology facts you need to know — in a flash! Featuring more than 100 colorful 4 x 6 note cards, Mosby's Pharmacology Memory

NoteCards: Visual, Mnemonic, & Memory Aids for Nurses, 6th Edition uses illustrations and humor to make studying easier and more fun. This unique pharmacology review may be used as either a spiral-bound notebook or as individual flashcards, so it's perfect for studying while on the go. Created by nursing educators JoAnn Zerwekh and Ashley Garneau, these durable note cards will help you prepare for class, clinicals, or the NCLEX® examination. There's no other study tool

like it! UNIQUE! Color-highlighted monographs emphasize important nursing implications, frequent side effects, serious or life-threatening implications, and patient teaching, making it easier to identify nursing priorities on common medications. UNIQUE! Mnemonics and other proven memory aids help you grasp and remember even the most complex concepts. UNIQUE! More than 100 colorful cartoons offer humorous and memorable presentations of key drugs, and are ideal for

visual learners. What You Need to Know sections on each card cover the most essential information in a quick and easy-to-review format. Thick pages and a spiral-bound format create a portable tool that is durable enough for use in the clinical environment. Colored thumb tabs at the bottom of the page allow you to find topics quickly. NEW! 8 brand-new cards are added on these topics: Pre-Exposure Prophylaxis (PrEP), Azoles, Mupirocin, Cyanocobalamin, Gabapentin, Corticosteroids,

Clobetasol, and Folic Acid. NEW! Updated content is thoroughly reviewed and included throughout the cards.
