The type test inside will tell you about the choices you've made and the direction you're taking—according to C. G. Jung's theory of psychological types. For Jung, knowing your type was essential to understanding yourself: a way to measure personal growth and change. But his ideas have been applied largely in the areas of career and marital counseling, so type has come to seem predictive: a way to determine your job skills and social abilities. This book reclaims type as a way to talk about people's inner potential and the choices they make in order to honor it. Using everyday examples from popular culture—films, "Star Trek," soap operas, comic strips—it describes the sixteen basic ways people come to terms with their gifts and values. In this book you will find tools to understand:

- How your personality takes shape
- How your type reflects not only your current priorities, but your hidden potential
- How unlive possibilities are trying to get your attention
- How relationships at home and at work can help you to tap your unrealized gifts

Whether you're trying to figure out who you are and what you need to do in life, or recognizing that deeper meaning lies beyond what you've already accomplished, this book will help you to become aware of your greatest strengths, your opportunities to live them out, and your ability to make the most of your unique potential.

How do you fix your troubled adolescent? After years of working as an in-home therapist and probation officer, author William Glover grew frustrated with the conventional wisdom that said medication and/or therapy offered the only hope for angry, defiant, unmotivated, ADHD, ADD, oppositional, defiant, drug involved, juvenile court involved, and behaviorally handicapped kids. Based on his work with adolescents and their parents, he became convinced that the solution for the majority of troubled kids resided not with the professionals, but with the parents of these children. With this as a starting point, Glover began developing "The Adolescent Owner's Manual," a unique and effective resource designed to provide parents with the practical, common-sense tools and skills essential to parenting troubled adolescents.

In 2016, Americans fed up with the political process vented that frustration with their votes. Republicans nominated for president a wealthy businessman and former reality show host best known on the campaign trail for his sharp rhetoric against immigration and foreign trade. Democrats nearly selected a self-described socialist who ran on a populist platform against the influence of big money in politics. While it is not surprising that Americans would channel their frustrations into votes for contenders who pledge to end business as usual, the truth is that we don't have to pin our hopes for greater participation on any one candidate. All of us have a say—if we learn, master and practice the skills of effective citizenship. One of the biggest roadblocks to participation in democracy is the perception that privileged citizens and special interests command the levers of power and that everyday Americans can't fight City Hall. That perception is undoubtedly why a 2015 Pew Charitable Trusts survey found that 74 percent of those Americans surveyed believed that most elected officials didn't care what people like them thought. Graham and Hand intend to change that conventional wisdom by showing citizens how to flex their

citizenship muscles. They describe effective citizenship skills and provide tips from civic experts. Even more importantly, they offer numerous examples of everyday Americans who have used their skills to make democracy respond. The reader will see themselves in these examples of citizens who chose to be victorious participants rather than tranquil spectators in the arena of democracy. By the end of the book, you will have new confidence that citizen participation is the lifeblood of America -- and will be ready to make governments work for you, not the other way around.

A national bestseller! Breast cancer surgeon Dr. Kristi Funk offers a comprehensive and encouraging approach to breast care and breast cancer. Empower yourself with facts and strategies to understand your breasts, reduce your cancer risk, and open your eyes to interventions and treatments. Most women don't want to hear about breast cancer unless they have it and need to make some decisions, but these days news about breast cancer—the number one killer of women ages twenty to fifty-nine—is everywhere. Chances are you know someone who has had it. But did you know that choices you make every day bring you closer to breast cancer—or move you farther away? That there are ways to reduce your risk factors? And that many of the things you've heard regarding the causes of breast cancer are flat-out false? Based on Dr. Kristi Funk's experience as a board-certified breast cancer surgeon, she knows for a fact that women have the power to reduce breast cancer risk in dramatic ways. Many women believe that family history and genetics determine who gets breast cancer, but that's not true for most people. In fact, 87 percent of women diagnosed with breast cancer do not have a single first-degree relative with breast cancer. This book will help you: Learn the breast-health basics that every woman should know Reduce your cancer risk and recurrence risk based on food choices and healthy lifestyle changes backed by rigorous scientific research Understand the controllable and uncontrollable risk factors for breast cancer Outline your medical choices if you're at elevated risk for or are already navigating life with breast cancer There have been few solid guidelines on how to improve your breast health, lower your risk of getting cancer, and make informed medical choices after treatment—until now. With her book available in 10 languages and in more than 30 countries, Dr. Funk is passionate about her mission of educating as many women as possible about what they can do to stop breast cancer before it starts. Praise for *Breasts: The Owner's Manual*: “Dr. Funk writes *Breasts: The Owner's Manual* just like she talks: with conviction, passion, and a laser focus on you.” —Dr. Mehmet Oz, Host of *The Dr. Oz Show* “*Breasts: The Owner's Manual* will become an indispensable and valued guide for women looking to optimize health and minimize breast illness.” —Debu Tripathy, MD, Professor and Chair, Department

of Breast Medical Oncology, University of Texas MD Anderson Cancer Center
“Breasts: The Owner’s Manual not only provides a clear path to breast health, but a road that leads straight to your healthiest self. As someone who has faced breast cancer, I suggest you follow it.” —Robin Roberts, Co-anchor, Good Morning America

Professors: Order your exam copy today by clicking on the &BAD:"Request an Exam Copy&BAD:" link above. Would you teach someone to play basketball using just chalkboard diagrams? Or would you get them on the court and have them play? In basketball, the answer is easy&BAD:—you do both. So why teach politics only as a spectator sport? Senator Bob Graham believes that students should expand on their classroom learning about the political system: he spurs them to hit the court and actually play the game. If students work on an issue they care about, politics will become a meaningful and positive experience. This short, how-to guide takes students out of theoretical discussions of policy and into a world where they can affect change. Graham&BAD:’s goal is to have students identify a problem, and then walk them through each step from researching the issue, to getting others involved, to engaging the media. Each chapter starts with a real case, showing citizens tackling a step in the process, and ends with a summary checklist and a series of questions that help students put Graham&BAD:’s game plan in action. By offering students concrete guidance, an array of resources, and advice for

troubleshooting and overcoming barriers, this compact user&BAD:’s guide gets students way beyond textbook learning. Thirty-five years ago, as a member of the Florida Legislature, Bob Graham took on the challenge of civic education for eighteen weeks at a Miami-area high school. His time as both a governor and a senator has only strengthened his resolve to pique students&BAD:’ curiosity about politics and teach them to get what they want from government.
