On these pages you
will discover that
during His time on
earth, Jesus was not
only a Jew, but a

trained and qualified
Rabbi--who had verified
authority to be the
leading teacher of His
day. Where was Jesus
from age 12 when He
was in the temple, until
we find Him at age 30
being baptized by John
the Baptist? Why did
they call Him Rabbi? By
what authority did
Jesus teach in a
synagogue? Why did He
command such a great
following? Says the
author, "As a follower
of Christ, what you are
about to discover will
help establish a cultural
context that will enable
you to clearly interpret
the teachings of God's
Son."

Michael Morpurgo has created a sweeping and dramatic story in the time of Bonnie Prince Charlie. This spellbinding tale is complemented perfectly by Michael Foreman's illustrations. Robbie McLeod and a wolf cub, both orphaned, venture far from their birthplace, a land of rebellious fighters and vicious redcoats. There is little constancy in Robbie's adventurous life, save for the companionship of his wolf. But when at last Robbie finds a

place where he can peacefully make his home, he knows in his heart that the wolf must find his own natural home too . . .

The OECD Programme for International Student Assessment (PISA) examines what students know in reading, mathematics and science, and what they can do with what they know. his is one of six volumes that present the results of the PISA 2018 survey, the seventh round of the triennial assessment. Volume V, Effective Policies, Successful Schools, analyses schools and school systems and their relationship with

education outcomes more generally. *Folens One a Week Maths Folens Limited* *Coping with Stress at University* comprehensively covers the main problems and stresses that a student may experience during their university career. Looking at university life from a variety of angles, this book equips the student to be able to deal with stressful situations ranging from exam pressure to relationship problems, from homesickness to managing finances. Although the problems do not change, the way a student faces them can and the more effective the approach,

the less stress the student will feel when tackling their concerns. Quotes and case studies from previous students illustrate how problems have been dealt with in the past, and a number of coping techniques and exercises are provided to help prepare students for the transition into and through university life. *Coping with Stress at University* is an invaluable introduction to university life for any potential or current student, and it also acts as a helpful resource for parents and friends wishing to gain a greater understanding of the issues faced at university. *Magic Readers (Set)*

Are you striving to
establish a more
creative and
imaginative classroom?

Are you interested in:
the generosity of
creativity; creative
conjecture; being an

advocate for creativity;
welcoming the
unexpected, the
unpredictable and the
unconventional; taking
risks; learning which
leads to new or original
thinking which is of
value? If so, this
completely updated
new edition of a classic
text will show you how
to achieve these ideals.
The book is written in a
clear and practical way
by leading researchers
and practitioners,
offering help and advice
on the planning and
implementation of
effective creative
teaching and learning,
and providing examples
of best practice through
a rigorous theoretical
rationale. A hallmark of
the book is its
exploration of

creativity through curriculum subjects. It builds on this in its first and last chapters by addressing key cross-curricular themes that thread their way throughout the book. Throughout there is an emphasis on critical and reflective practice. New to this edition are: three entirely new chapters on drama, music and geography; an update of the introduction to account for advances in creativity research, policy and practice; a new final chapter identifying cross-curricular themes; greater attention to international dimensions and examples. In this second edition the

authors are drawn from six universities which between them produce some of the best education research internationally, and some of the best teacher education. The authors also come from leading national and international organisations such as the National Gallery in London and the Geographical Association. Creativity for the Primary Curriculum is a core text for both training and practicing Primary teachers who wish to maintain high standards when approaching their teaching.
