Welcome to the Australian Outback! As your jeep bumps along an empty road, the dry, dusty land all around you bakes in the heat. But the Outback is full of life, from a frilled lizard snapping at bush flies to a kangaroo family munching on grass. Day and night in the Outback, the hunt is on to find food—and to avoid becoming someone else ' s next meal. All living things are connected to one another in a food chain, from animal to animal, animal to plant, plant to insect, and insect to animal. What path will you take to follow the food chain through the Outback? Will you ... Run with a pack of dingos? Lurk with a saltwater crocodile as it stalks its prey? Swoop through the night sky with a ghost bat? Follow all three chains and many more on this who-eats-what adventure!

This three-volume encyclopedia on the history of American food and beverages serves as an ideal companion resource for social studies and American history courses, covering topics ranging from early American Indian foods to mandatory

nutrition information at fast food restaurants. The expression "you are what you eat" certainly applies to Americans, not just in terms of our physical health, but also in the myriad ways that our taste preferences, eating habits, and food culture are intrinsically tied to our society and history. This standout reference work comprises two volumes containing more than 600 alphabetically arranged historical entries on American foods and beverages, as well as dozens of historical recipes for traditional American foods; and a third volume of more than 120 primary source documents. Never before has there been a reference work that coalesces this diverse range of information into a single set. The entries in this set provide information that will transform any American history research project into an engaging learning experience. Examples include explanations of how tuna fish became a staple food product for Americans, how the canning industry emerged from the Civil War, the difference between Americans and people of other countries in terms of what percentage of their income is spent on food and beverages, and how taxation on beverages like tea, rum, and whisky set off important political rebellions in U.S. history. This wide-ranging encyclopedia addresses our rapidly changing understanding of health and wellness, providing a collection of essays that are up-to-date and comprehensive in both scope and breadth. Encyclopedia of Wellness: From Açai Berry to Yo-Yo Dieting offers expert advice to anyone seeking information on a condition or illness. More than that, however, this three-volume resource is a compendium of practical information on how to reduce poor health choices and live a healthy, active, vibrant life. A source of basic, easily understandable entries on health and wellness, the encyclopedia covers an extraordinarily broad array of health-related topics including acupuncture, art therapy, biofeedback, food additives, nutrition labels, organic foods, and workplace wellness. Bulimia is covered, as are depression, autism, cancer, and environmental hazards. Essays examine issues related to healthy living for the mind and the body, stressing the importance of the mind-body connection to good health. Information is also offered on practical concerns such as medical savings accounts, changes in medical insurance, and the U.S. health care system. Throughout, the encyclopedia presents knowledge gleaned from new research on treatment and especially on choices in nutrition and exercise.

Target. Observe. Ridicule. You run into them every day—the striped-shirt guy, the karaoke master, the dude with a pencil-thin beard, the guy who won’t shut up about his fantasy football team—characters who annoy, irritate, and incense us all. Based on the wildly popular essay on ThePhatPhree.com by Mike Polk, this book is a look inside the heads of the most infuriating douchebags on Earth. It’s the best of ThePhatPhree.com plus more than fifty all-new, hilarious pieces written by some of your favorite writers from this site. Everyone’s (Least) Favorite, The Striped-Shirt Guy ... I will valet tonight! I will treat the valet with contempt and make sure that he knows that I am superior to him. I will tell him, “Take it easy on the brakes, champ!” When I do not hook up with a girl at the club, I will say that the place is “full of skanks” and wait in line at another bar, only to strike out again! Your “Cool” High School Teacher ... Here are some things I allow in my class that other teachers don’t: eating, drinking, swearing, dancing, smoking, fighting, cell phones, Texas hold ’em, iPods, and sex. Like my Goo Goo Dolls tee? Anyone else here down with the Dolls? No? Me either. I’m just wearing it as a goof. The Guy with Amazing Taste in Music ... Personally, I haven’t listened to the radio in fifteen years. If you have ever heard a band on the radio, then I can assure you, I am not a fan. I stopped listening to American music about ten years ago.

Eating junk food and fast food is a great all-American passion. American kids and grownups love their candy bars, Big Macs and supersized fries, Doritos, Twinkies, and Good Humor ice cream bars. The disastrous health effects from the enormous appetite for these processed fat- and sugar-loaded foods are well publicized now. This was particularly dramatically evidenced by Super Size Me (2004), filmmaker Morgan Spurlock's 30-day all-McDonald's diet in which his liver suffered the same poisoning as if he had been on an extended alcohol binge. Through increased globalization, American popular food culture is being increasingly emulated elsewhere in the world, such as China, with the potential for similar disastrous consequences. This A-to-Z reference is the first to focus on the junk food and fast food phenomena from a multitude of angles in addition to health and diet concerns. More than 250 essay entries objectively explore the scope of the topics to illuminate the American way through products, corporations and entrepreneurs, social history, popular culture, organizations, issues, politics, commercialism and consumerism, and much more. Interest in these topics is high. This informative and fascinating work, with entries on current controversies such as mad cow disease and factory farming, the food pyramid, movie tie-ins, and marketing to children, will be highly useful for reports, research, and browsing. It takes readers behind the scenes, examining the significance of such things as uniforms, training, packaging, and franchising. Readers of every

age will also enjoy the nostalgia factor, learning about the background of iconic drive-ins, the story behind the mascots, facts about their favorite candy bar, and collectables. Each entry ends with suggested reading. Besides an introduction, a timeline, glossary, bibliography, resource guide, and photos enhance the text. Sample entries: A&W Root Beer; Advertising; Automobiles; Ben & Jerry's; Burger King; Carhops; Center for Science in the Public Interest; Christmas; Cola Wars; Employment; Fair Food; Fast Food Nation; Hershey, Milton; Hollywood; Injury; Krispy Kreme; Lobbying; Nabisco; Obesity; PepsiCo; Salt; Soda Fountain; Teen Hangouts; Vegetarianism; White Castle; Yum! Brands, Inc.

The Orthodox Christian experience is infused with beauty. God calls to us through the presence of beautiful things—from the elegant chalice that houses Christ's very body to the icons of beloved saints hanging in our homes. Beautiful Things is a 64-page coloring book for our littlest believers. As they color the Good Shepherd or the Jesus Prayer, they are cultivating their own sensibility to beauty while learning to recognize some of the meaningful symbols, elements, and motifs of the Church.
