"dialogues," the late

McKenna, acclaimed

biologist and originator of the morphogenetic fields theory Rupert Sheldrake, and mathematician and chaos theory scientist Ralph Abraham explore the relationships between chaos and creativity and their connection to cosmic consciousness. Their observations call into question our current views of reality, morality, and the nature of life in the universe. The authors challenge the reader to the deepest levels of thought with wide-ranging investigations of the ecology of inner and outer space, the role of chaos in the dynamics of human creation, and the resacralization of the world. Among the provocative questions the authors raise are: Is Armageddon a self-

fulfilling prophecy? Are we humans the imaginers or the imagined? Are the eternal laws of nature still evolving? What is the connection between physical light and the light of consciousness? Part ceremony, part old-fashioned intellectual discussion, these dialogues are an invitation to a new understanding of what Jean Houston calls "the dreamscapes of our everyday waking life." *From Recollection to Recipe* Ebury Press Cited by the L.A. Weekly as "the culture's foremost spokesman for the psychedelic experience," Terrence McKenna is an underground legend as a brilliant raconteur, adventurer, and expert on the experiential use of mind-altering plants. In these

essays, interviews, and narrative adventures, McKenna takes us on a mesmerizing journey deep into the Amazon as well as into the hidden recesses of the human psyche and the outer limits of our culture, giving us startling visions of the past and future.

What do we think about when we think about Greek food? For many, it is the meze and the traditional plates of a Greek island taverna at the height of summer. In *Gifts of the Gods*, Andrew and Rachel Dalby take us into and beyond the taverna in our minds to offer us a unique and comprehensive history of the foods of Greece. Greek food is brimming with thousands of years of history, lore, and culture. The country has one of the most varied landscapes of Europe, where steep mountains, low-lying plains, rocky islands, and crystal-blue seas jostle one

another and produce food and wine of immense quality and distinctive taste. The book discusses how the land was settled, what was grown in different regions, and how certain fruits, herbs, and vegetables became a part of local cuisines. Moving through history—from classical to modern—the book explores the country’s regional food identities as well as the export of Greek food to communities all over the world. The book culminates with a look at one of the most distinctive features of Greece’s food tradition—the country’s world renown hospitality. Illustrated throughout and featuring traditional recipes that blend historical and modern flavors, *Gifts of the Gods* is a mouth-watering account of a rich and ancient cuisine.

All over the world there are fantastic ruins and objects that cannot be explained by conventional history, archaeology or religion. In the ground-breaking *Chariots of the Gods*, Erich von Daniken provides answers to these questions...why do religious texts often refer to Gods who descend from fiery chariots? Why do modern space launch sites look like constructions on the plains of Nazca in Peru? Was God an astronaut? By looking at human history and the ruins of ancient civilisations with an open mind, Erich von Daniken offers a new solution to these eternal mysteries in *Chariots of the Gods*. Why, for instance, do the world's sacred books describe Gods who came down from the sky in fiery chariots and always promised to return? How could

an ancient Sanskrit text contain an account which could only be of a journey in an alien craft? Compare photographs of American space centre launch sites to the constructions on the plains of Nazca in Peru. In order to understand the mysteries which Erich von Daniken has catalogued we must go back to these ancient relics with an open mind. We must call in the resources and experience of sciences other than archaeology. *Chariots of the Gods* is a provocative attempt to explain some of the universe's most interesting mysteries. Erich von Daniken has spent a lifetime gathering evidence to prove that, before the dawn of recorded history, our ancestors were visited by an alien race. Erich von Daniken was responsible for popularising the ancient astronaut hypothesis of human development. Orthodox historians have been sceptical but a vast public have been drawn to his ideas by instinctive interest and wonder. His 26 books have sold over 60 million copies in over 40 languages.

NEW YORK TIMES

BESTSELLER • The

harrowing story of one of the great feats of exploration of all time and its complicated legacy—from the New York Times bestselling author of *The River of Doubt* and *Destiny of the Republic* For millennia the location of the

Nile River's headwaters was shrouded in mystery. In the 19th century, there was a frenzy of interest in ancient Egypt. At the same time, European powers sent off waves of explorations intended to map the unknown corners of the globe – and extend their colonial empires. Richard Burton and John Hanning Speke were sent by the Royal Geographical Society to claim the prize for England. Burton spoke twenty-nine languages, and was a decorated soldier. He was also mercurial, subtle, and an iconoclastic atheist. Speke was a young aristocrat and Army officer determined to make his mark, passionate about hunting, Burton's opposite in temperament and beliefs. From the start the two men clashed. They would endure tremendous hardships, illness, and constant setbacks. Two years in, deep in the African interior, Burton became too sick to press on,

but Speke did, and claimed he found the source in a great lake that he christened Lake Victoria. When they returned to England, Speke rushed to take credit, disparaging Burton. Burton disputed his claim, and Speke launched another expedition to Africa to prove it. The two became venomous enemies, with the public siding with the more charismatic Burton, to Speke's great envy. The day before they were to publicly debate, Speke shot himself. Yet there was a third man on both expeditions, his name obscured by imperial annals, whose exploits were even more extraordinary. This was Sidi Mubarak Bombay, who was enslaved and shipped from his home village in East Africa to India. When the man who purchased him died, he made his way into the local Sultan's army, and eventually traveled back to Africa, where he used his resourcefulness, linguistic prowess and raw

courage to forge a living as a guide. Without Bombay and men like him, who led, carried, and protected the expedition, neither Englishman would have come close to the headwaters of the Nile, or perhaps even survived. In *River of the Gods* Candice Millard has written another peerless story of courage and adventure, set against the backdrop of the race to exploit Africa by the colonial powers. *The Daily Show (The Book)* Bantam

[How to Write a Book in 24 Hours](#) Random House
“This quietly profound book belongs on the shelf next to Jon Krakauer’s *Into the Wild*.” —The New York Times
The riveting true story of Dick Conant, an American folk hero who, over the course of more than twenty years, canoed solo thousands of miles of American rivers—and then disappeared near the Outer Banks of North Carolina. This book “contains everything: adventure, mystery,

travelogue, and unforgettable characters” (David Grann, best-selling author of *Killers of the Flower Moon*). For decades, Dick Conant paddled the rivers of America, covering the Mississippi, Yellowstone, Ohio, Hudson, as well as innumerable smaller tributaries. These solo excursions were epic feats of planning, perseverance, and physical courage. At the same time, Conant collected people wherever he went, creating a vast network of friends and acquaintances who would forever remember this brilliant and charming man even after a single meeting. Ben McGrath, a staff writer at *The New Yorker*, was one of those people. In 2014 he met Conant by chance just north of New York City as Conant paddled down the Hudson, headed for Florida. McGrath wrote a widely read article about their encounter, and when Conant's canoe washed up a few months

later, without any sign of his body, McGrath set out to find the people whose lives Conant had touched--to capture a remarkable life lived far outside the staid confines of modern existence. *Riverman* is a moving portrait of a complex and fascinating man who was as troubled as he was charismatic, who struggled with mental illness and self-doubt, and was ultimately unable to fashion a stable life for himself; who traveled alone and yet thrived on connection and brought countless people together in his wake. It is also a portrait of an America we rarely see: a nation of unconventional characters, small river towns, and long-forgotten waterways.
