The 534 cubic inch Ford V8 bellowed and roared through the two short pipes exiting under my feet. The wide-open Holley four barrel noisily sucked the cool morning air. The air-scooped hood rose and dropped on one side with each banging shift, a visual testament to massive torque.

ford 534 engine. - Hot Rod Forum : Hotrodders Bulletin Board  
The Ford 385 engine family was the Ford Motor Company's final big block V8 engine design, replacing the Ford MEL engine and gradually superseding the Ford FE engine family. The engine, which got its name from the 3.85-inch (98 mm) crankshaft stroke of the 460 cu in (7.5 L) V8, was a departure from previous designs, utilizing thinwall casting methods and a skirtless block to reduce weight.
