I have had this tractor for over 25 years. My question is, are all 601 Ford tractors positive ground. I was ordering a set of electroinc points to replace the regular points and noticed everything was for positive ground. My tractor is hooked up- negative to ground and the positive to the selenoid. It has been that way for over 25 years.

I am a very serious collector of Ford tractors. The standard of quality by which Dave at Arthurs Tractors restores his tractors surpasses anything I've ever seen. I bought 2 of his tractors, an 8N and a NAA, for my collection. He also restored

another 8N for me and because of his quality, it won't be the last. Thanks Dave.
