The classic thriller about a hostile foreign power infiltrating American politics: “ Brilliant . . . wild and exhilarating. ” —The New Yorker A war hero and the recipient of the Congressional Medal of Honor, Sgt. Raymond Shaw is keeping a deadly secret—even from himself. During his time as a prisoner of war in North Korea, he was brainwashed by his Communist captors and transformed into a deadly weapon—a sleeper assassin, programmed to kill without question or mercy at his captors ’ signal. Now he ’ s been returned to the United States with a covert mission: to kill a candidate running for US president . . . This “ shocking, tense ” and sharply

satirical novel has become a modern classic, and was the basis for two film adaptations (San Francisco Chronicle). “ Crammed with suspense. ” —Chicago Tribune “ Condon is wickedly skillful. ” —Time

The Fordson Major tractor was produced in large numbers at Ford's UK Dagenham factory from 1951 until 1964, and was exported across the world, including to the USA (where it was called the Ford 5000 diesel). Produced with petrol, diesel and kerosene-burning engines, the E1A was the subject of continuous development during its life and was a huge success. Many examples of the E1A can still be found at work on farms today, 50 years after the first models entered production. This extensively illustrated book provides a unique insight into this classic tractor.

For Stirling engines to enjoy widespread application and acceptance, not only must the fundamental operation of such engines be widely understood, but the requisite analytic tools for the stimulation, design, evaluation and optimization of Stirling engine hardware must be readily available. The purpose of this design manual is to provide an introduction to Stirling cycle heat engines, to organize and identify the available Stirling engine

literature, and to identify, organize, evaluate and, in so far as possible, compare non-proprietary Stirling engine design methodologies. This report was originally prepared for the National Aeronautics and Space Administration and the U. S. Department of Energy.
