Everything to Gain Putnam
Publishing Group

A novel of the American South during the Revolutionary War follows Ethan Pratt, his wife Epsey, and their neighbors, Kindred and Mavis Morris, as they become caught up in the conflict and the problems confronting local Indian tribes.

The Unfinished Presidency of Jimmy Carter
CQ Press

In the mid-1970s, the Cold War had frozen

into a nuclear stalemate in Europe and retreated from the headlines in Asia. As Gerald Ford and Jimmy Carter fought for the presidency in late 1976, the superpower struggle overseas seemed to take a backseat to more contentious domestic issues of race relations and rising unemployment. There was one continent, however, where the Cold War was on the point of flaring hot: Africa. Jimmy Carter in Africa opens just after Henry Kissinger's failed 1975 plot in Angola, as Carter launches his presidential campaign. The Civil Rights Act was only a decade old, and issues of racial justice remained contentious. Racism at home undermined Americans' efforts to "win hearts and minds" abroad and provided potent propaganda to the Kremlin. As President Carter confronted

Africa, the essence of American foreign policy--stopping Soviet expansion--slammed up against the most explosive and raw aspect of American domestic politics--racism. Drawing on candid interviews with Carter, as well as key U.S. and foreign diplomats, and on a dazzling array of international archival sources, Nancy Mitchell offers a timely reevaluation of the Carter administration and of the man himself. In the face of two major tests, in Rhodesia and the Horn of Africa, Carter grappled with questions of Cold War competition, domestic politics, personal loyalty, and decision-making style. Mitchell reveals an administration not beset by weakness and indecision, as is too commonly assumed, but rather constrained by Cold War dynamics and by the president's own

temperament as he wrestled with a divided public and his own human failings. Jimmy Carter in Africa presents a stark portrait of how deeply Cold War politics and racial justice were intertwined.

[The Complete Idiot's Guide to American History](#) Random House Incorporated
This comprehensive two-volume guide is the definitive source for researchers seeking an understanding of those who have occupied the White House and on the institution of the U.S. presidency. Readers turn Guide to the Presidency and the Executive Branch for its wealth of facts and analytical chapters that explain the structure, powers, and operations of the office and the president ' s relationship with Congress and the Supreme Court. The fifth edition of this acclaimed reference completes coverage of the

George W. Bush presidency, the 2008 election, and the first 3 years of the presidency of Barack Obama. This includes coverage of their handling of the economic crisis, wars abroad, and Obama ' s healthcare initiatives. The work is divided into eight distinct subject areas covering every aspect of the U.S. presidency, and all chapters in each subject area have been revised and updated: Origins and Development of the Presidency, including constitutional beginnings, history of the presidency and vice presidency, and presidential ratings Selection and Removal of the President, including the electoral process, a chronology of presidential elections, removal of the president and vice president, and succession Powers of the Presidency, including the unilateral powers of the presidency and those as

chief of state, chief administrator, legislative leader, commander in chief, and chief economist The President, the Public, and the Parties, including presidential appearances, the president and political parties, the president and the news media, the presidency and pop culture, public support and opinion, and the president and interest groups The Presidency and the Executive Branch, including the White House Office, the Office of the Vice President, supporting organizations, the cabinet and executive departments, presidential commissions, and executive branch housing, pay, and perquisites Chief Executive and Federal Government, including the president and Congress, the president and the Supreme Court, and the president and the bureaucracy Presidents, their Families, and Life in the White House and Beyond, including the daily life of the

president, the first lady, the first family, friends of presidents, and life after the presidency *Biographies of the Presidents, Vice Presidents, First Ladies* This new volume also features more than 200 textboxes, tables, and figures. Major revisions cover the supporting White House organizations and the president's role as chief economist. Additional reference materials include explanatory headnotes, as well as hundreds of photographs with detailed captions. *Remarkable Off-the-record Conversations with Gerald R. Ford* Penguin

After the Nixon and Ford administrations, liberal Democrats hoped Jimmy Carter's election in 1976 would restore the New Deal agenda in the White House. Instead, during four tumultuous years in office, Carter endorsed many of the fiscal and economic

policies later espoused by his Republican successor, Ronald Reagan. But Carter also backed most New Deal social programs and, however reluctantly, pursued a traditional containment foreign policy. In this book more than a dozen eminent scholars provide a balanced overview of key elements of Carter's presidency, examining the significance of his administration within the context of evolving American policy choices after World War II. They seek not only to understand the troubled Carter presidency but also to identify the changes that precipitated and accompanied the demise of the New Deal order. By the time Carter took office many Americans had become disenchanted with big government and welfare spending, and his presidency is viewed in these pages as a transitional administration. As this volume demonstrates, Carter's dilemma

emerged from his effort to steer a course between traditional expectations of federal government and new political and economic realities. While most of the contributors agree that his administration may be justly criticized for failing to find that course, they generally conclude that Carter was more successful than his critics acknowledge. These thirteen original essays cover such topics as the economy, trade and industrial policies, welfare reform, energy, environment, civil rights, feminism, and foreign policy. They offer thoughtful assessments of Carter's performance, focusing on policy both as cause and effect of the post-industrial transformation of American society that shadowed his administration. A final essay shows how Carter's public spirited post-presidential career has made him one of America's greatest ex-presidents. Grounded on

research conducted at the Carter Library, *The Carter Presidency* is an incisive reassessment of an isolated Democratic administration from the vantage point of twenty years. It is a milestone in the historical appraisal of that administration, inviting us to take a new look at Jimmy Carter and see what his presidency represented for a dramatically changing America.

Talking Peace Crown Publishing Group (NY)
The former president's account of his first political battle reveals how his entrance into politics was riddled by a volatile political scene in the South, spurred by the Supreme Court's "one man, one vote" decision. 50,000 first printing. \$50,000 ad/promo.

Turning Point Routledge

At no time in American history has an understanding of the role and the art of diplomacy in international relations been more essential than it is today. Both the history of U.S. diplomatic

relations and the current U.S. foreign policy in the twenty-first century are major topics of study and interest across the nation and around the world. Spanning the entire history of American diplomacy—from the First Continental Congress to the war on terrorism to the foreign policy goals of the twenty-first century—*Guide to U.S. Foreign Policy* traces not only the growth and development of diplomatic policies and traditions but also the shifts in public opinion that shape diplomatic trends. This comprehensive, two-volume reference shows how the United States gained “the strength of a giant” and also analyzes key world events that have determined the United States’ changing relations with other nations. The two volumes’ structure makes the key concepts and issues accessible to researchers: The set is broken up into seven parts that feature 40 topical and historical chapters in which expert writers cover the diplomatic initiatives of the United States from colonial times through the present day. Volume

II’s appendix showcases an A-to-Z handbook of diplomatic terms and concepts, organizations, events, and issues in American foreign policy. The appendix also includes a master bibliography and a list of presidents; secretaries of state, war, and defense; and national security advisers and their terms of service. This unique reference highlights the changes in U.S. diplomatic policy as government administrations and world events influenced national decisions. Topics include imperialism, economic diplomacy, environmental diplomacy, foreign aid, wartime negotiations, presidential influence, NATO and its role in the twenty-first century, and the response to terrorism. Additional featured topics include the influence of the American two-party system, the impact of U.S. elections, and the role of the United States in international organizations. *Guide to U.S. Foreign Policy* is the first comprehensive reference work in this field that is both historical and thematic. This work is of immense value for researchers, students,

and others studying foreign policy, international relations, and U.S history. ABOUT THE EDITORS Robert J. McMahon is the Ralph D. Mershon Professor of History in the Mershon Center for International Security Studies at The Ohio State University. He is a leading historian of American diplomatic history and is author of several books on U.S. foreign relations. Thomas W. Zeiler is professor of history and international affairs at the University of Colorado at Boulder and is the executive editor of the journal *Diplomatic History*.

Jimmy Carter in Plains The Carter Years The Oxford Guide to the United States Government is the ultimate resource for authoritative information on the U.S. Presidency, Congress, and Supreme Court. Compiled by three top scholars, its pages brim with the key figures, events, and structures that have animated U.S.

government for more than 200 years. In addition to coverage of the 2000 Presidential race and election, this Guide features biographies of all the Presidents, Vice Presidents, and Supreme Court Justices, as well as notable members of Congress, including current leadership; historical commentary on past elections, major Presidential decisions, international and domestic programs, and the key advisors and agencies of the executive branch; in-depth analysis of Congressional leadership and committees, agencies and staff, and historic legislation; and detailed discussions of 100 landmark Supreme Court cases and the major issues facing the Court today. In addition to entries that define legal terms and phrases and others that elaborate on the

wide array of government traditions, this invaluable book includes extensive back matter, including tables of Presidential election results; lists of Presidents, Vice Presidents, Congresses, and Supreme Court Justices with dates of service; lists of Presidential museums, libraries, and historic sites; relevant websites; and information on visiting the White House, the Capitol, and Supreme Court buildings. A one-stop, comprehensive guide that will assist students, educators, and anyone curious about the inner workings of government, *The Oxford Guide to the United States Government* will be a valued addition to any home library. *Memoirs of a President* Infobase Publishing Paul Krugman dissects the Bush tax proposal and shows us who wins, who loses,

and how quickly the tax cuts will consume the surplus. Always the equal-opportunity critic when it comes to faulty economics, Krugman also tucks into the Democratic alternatives to the Bush plan.

Fuzzy Math: The Essential Guide to the Bush Tax Plan Simon and Schuster

This one-volume reference presents the major conceptual approaches to the study of U.S. political parties and the national party system, describing the organization and behavior of U.S. political parties in thematic, narrative chapters that help undergraduate students better understand party origins, historical development, and current operations. Further, it provides researchers with in-depth analysis of important subtopics and connections to other aspects of politics. Key Features: Thematic, narrative chapters, organized into six major parts, provide the context, as well as in-depth analysis of the unique system of party

politics in the United States. Top analysts of party politics provide insightful chapters that explore how and why the U.S. parties have changed over time, including major organizational transformations by the parties, behavioral changes among candidates and party activists, and attitudinal changes among their partisans in the electorate. The authors discuss the way the traditional concept of formal party organizations gave way over time to a candidate-centered model, fueled in part by changes in campaign finance, the rise of new communication technologies, and fragmentation of the electorate. This book is an ideal reference for students and researchers who want to develop a deeper understanding of the current challenges faced by citizens of republican government in the United States.

Sources of Strength CQ Press

The former president shares his personal views on moral values as they relate to key issues today, evaluating the controversial and increasing

intersection between religious and political arenas. Jimmy Carter, a Life Simon and Schuster Gale Researcher Guide for: Gerald Ford is selected from Gale's academic platform Gale Researcher. These study guides provide peer-reviewed articles that allow students early success in finding scholarly materials and to gain the confidence and vocabulary needed to pursue deeper research.

The Presidential Hometown W. W. Norton & Company

The former president and architect of the Camp David Accords elucidates the historical and political background of Middle East enmities and presents an analysis of the structure of tensions and conflicting points of view of today.

The Blood of Abraham Regnery Publishing
"In The Trusteeship Presidency, the distinguished political scientist Charles O. Jones portrays

President Carter's seemingly antipolitical approach to politics and how it affected his often strained relations with Congress. Using the extensive interviews conducted with President Carter and senior members of the White House shortly after Carter's term ended, Jones considers the political context of Carter's extraordinary nomination and electoral victories in 1976, the new type of Congress that he faced in 1977, and the approach to Congress that was developed throughout the Carter years. The book seeks to explain more than to criticize, to understand more than to judge"--Jacket.

The Carter Years Penguin

"The Carter presidency is the most underappreciated of the last century. Often considered just a smiling but ineffectual Southerner in a sweater, Jimmy Carter deserves to be remembered instead as a risk taker who did what he felt was right, not what would be politically expedient, whose legacy led to

presidential successes long after his term, and whose list of lasting achievements reshaped the country. Stuart Eizenstat saw everything firsthand. As Carter's Chief Domestic Policy Adviser, he was directly involved in all domestic and economic decisions as well as in many involving foreign policy. Famous for the legal pads on which he recorded every meeting and call, he draws on more than 5,000 pages of contemporaneous notes, as well as declassified documents and more than 350 interviews he conducted with the era's key players from both parties, to write this comprehensive yet intimate history. Eizenstat takes you inside Camp David during the grueling negotiations for peace between Israel and Egypt; shows how Carter transformed our transportation, environment, and energy policies and supported a tough monetary policy that finally defeated stagflation;

and lays out how Carter made human rights the centerpiece of American foreign policy. This book is no apologia, however. Eizenstat analyzes Carter's triumphs and failures honestly so that we can understand how he dealt with some of the most intractable challenges any president has faced. He reveals the story behind the "malaise" speech and how the cabinet firing that followed nearly cost Carter his vice president. He describes the Iranian hostage crisis from both inside the White House and Ayatollah Khomeini's camp. And he puts you in the war room during Carter's 1980 presidential campaign against Ted Kennedy and Ronald Reagan. In the end, Eizenstat's definitive chronicle of Carter's consequential term in office shows that this good man from Georgia was a far better president than history has so far recognized."--Dust jacket.

The Counterfeit Debates of 1976 Arcadia Publishing
The new edition of this comprehensive, two-volume reference has been thoroughly revised and expanded by expert CQ Press writers—with years of experience covering Congress—to offer a complete institutional history of Congress along with updated insight and analysis on the 2008 and 2010 shifts in power of the U.S. Senate and House of Representatives.

observations during his career as a CBS White House correspondent, providing his view of the presidency during the Eisenhower, Kennedy, Johnson, Nixon, Ford, and Carter administrations

From Wilson to Obama CQ Press

The Guide to the Presidency is an extensive study of the most important office of the U.S. political system. Its two volumes describe the history, workings and people involved in this office from Washington to Clinton. The thirty-seven chapters of the Guide, arranged into seven distinct subject areas (ranging from the origins of the office to the powers of the presidency to selection and removal) cover every aspect of the presidency. Initially dealing with the constitutional evolution of the presidency

and its development, the book goes on to expand on the history of the office, how the presidency operates alongside the numerous departments and agents of the federal bureaucracy, and how the selection procedure works in ordinary and special circumstances. Of special interest to the reader will be the illustrated biographies of every president from Washington to the present day, and the detailed overview of the vice-presidents and first ladies of each particular office. Also included are two special appendices, one of which gathers together important addresses and speeches from the Declaration of Independence to Clinton's Inaugural Address, and another which provides results from elections and polls and statistics from each office.

Jimmy Carter and the United States Congress

Crown

Reveals the range of activities former president Jimmy Carter has pursued since 1980, his enormous influence in world politics, and his complex relationship with Fidel Castro and other leaders
