Readers will see how seemingly diverse disciplines intermingle and connect to one another – anthropology and economics, for example. The goal of the book is to teach students critical thinking and problem-solving skills that will allow them to approach social issues in an objective and informed way. New to this edition are significant updates on: The election of Donald Trump and the emergence of related populist movements Trade policy and health care Issues involving migration and immigration Emerging developments in artificial intelligence Comparisons between cultural and biological evolution Examples, data, recommended readings, and internet questions

Have you ever thought someone was watching you . . . but there was no one there? One summer's evening, Alice sees something out of the corner of her eye. She turns to look: just a trick of the light. She is no longer the lonely little girl she once was, with her games of make-believe and imaginary friend, Sam. Then Alice's world is shattered in a tragic accident, and Sam creeps out of the shadows and back into her life. At first Alice is comforted by his presence: a best friend to help fill the void in her heart. Perhaps even help her find someone real to share her life with. But Alice and Sam know he can only exist if she wants him there. So when Alice decides it's time for him to leave, who will get hurt in order for him to stay alive? A compelling novel that fans of page-turners such as Clare Mackintosh's I LET YOU GO and S. K. Tremayne's THE ICE TWINS will be gripped by.

This book, I have written, has helped to release all the tension I had with the obstacles I met along with the raising of this family. With the farm life and the large family, including a son with birth defects and Down's syndrome, life was strenuous. Years of struggling to keep the family well and happy. With the help of good doctors and surgeons, in Bobby's case, we have seen that it can be done. I was always trusting God in each incidence. It is my hope that this book will prove to be an inspiration to any and all who have the privilege of reading it.

The Long-Timers

This is the story of Victoria Wells, a woman who goes from being a prostitute in the East End of London to a wealthy philanthropist in New York City. Victoria is a long-timer, a person with an extremely long life span. After learning about herself, she meets Charles and Renee Fox, two long-timers who have been married for more than a thousand years. Victoria is taken in by another long-timer, Bergeron, a shadowy figure who may be Jack the Ripper. The story follows Victoria from her first meeting with Bergeron, through her relocation to New York and into the current day. It also takes Charles and Renee from their earliest times through their marriage and into the present, touching on some of the historical events in which they have participated.
