Lotus Europa - Colin Chapman's mid-engined masterpiece Veloce Publishing Ltd

The fabulous success of Ford's Mustang in America inspired Ford's British and German branches to do likewise. The sporty coupe they created, the Ford Capri, was launched in 1969 as the first joint production of the brand-new Ford of Europe. Billed as "The car you always promised yourself", the Capri was a signal success with almost 1.9 million made when production ended in 1987. Its rakish lines, keen pricing and broad power offerings gave the Capri wide appeal not only in Europe but also in America, which imported the Mark I and II versions from 1970 to 1977 for sale through Lincoln-Mercury dealers. The Mark III for Europe followed in 1978. No paper tigers, these classy coupes were formidable rally and racing cars as this book's illustrations reveal. A Capri insider, former Ford of Europe executive Karl Ludvigsen introduces the Capri saga and illuminates the many rare images from his world-famous Ludvigsen Library. A feast for fans of the Blue Oval, this book's pages bring to life the exciting story of one of the best-loved Fords of all time.

Porsche 956 / 962 Owner's Workshop Manual is the latest addition to the "classic racing car" manual series, taking the series beyond ten titles, and complementing Ferrari 250 GTO, Ford GT40, Porsche 917, AC Cobra, and Ferrari 512. This highly produced manual extends coverage of iconic sports-racing cars. 2016 was the 30th anniversary of the Porsche 962's first Le Mans win (the 956 having won for the previous four years) in the hands of Derek Bell, Hans Stuck and Al Holbart.

Ford Capri MkI, MkII & MkIII Haynes Publishing UK

This book covers the sporting versions of Ford Europe's Escort Mk2, including the Mexico, Sport, Harrier, RS1800 and the RS2000. Model-by-model, with hundreds of pictures, it gives you all the details of correct factory specifications and equipment, including body panels, external trim and badging, paint colors, interior trim and trim colors, dashboard, instruments and switches, under-hood components, engine and transmission, lamps, and all other features right down to the tool kit, from the beginning of production to the end. All this detailed information is vital to the buyer, owner and restorer. Each model's section opens with a brief text introduction followed by specially commissioned color photographs with extended captions. For quick reference to accurate and comprehensive information, this formula is hard to beat.

Step-by-step instructions for diagnosing engine trouble and for completely rebuilding a four cylinder Ford engine, from inspecting for wear to reconditioning each part

Ford Escort Owners Workshop Manual Herridge & Sons Limited

The Lotus Europa was Colin Chapman and Lotus's first mid-engined road car, and was produced from 1966 through to 1975. Originally designed to slot into the Lotus range below the Elan as a low cost replacement for the Lotus 7, the Europa eventually sat alongside the Elan and Plus 2 as a comparable sports car in its own right. Starting with the design philosophy behind the development of the Europa, this book provides detailed technical descriptions of all the major versions of the model, starting with the Renault-powered Series 1 through to the Lotus Twin Cam powered Special. It looks at the cars on the road, and the racing Type 47 derived from the road cars which competed in the small capacity Group 6 class, as well as featuring in historic racing today. With owners' impressions and interviews with ex-Lotus employees, the book provides a valuable insight into owning, running, and racing these iconic cars.

Citroen C3 Borgo Press

The requirements for a competition car electrical system are significantly different from those of a standard road car. Such luxuries as electric windows and central locking are superfluous. Conversely, equipment such as emergency electrical cut-outs and fire extinguisher systems may be required. Electrical system reliability is an often-overlooked aspect of competition car design, and a common source of trouble. Here is a practical, illustrated guide to all aspects of electrical system design and implementation, essential reading for anyone running or constructing a competition car or modifying a road car for competition use.

Sporting Mk2 Escorts Haynes Publishing UK

British Books in Print Porter Pub Limited

This totally revised, updated and enlarged book is THE complete guide to building a fast MG Midget or Austin-Healey Sprite for road or track. Daniel has been continuously developing his own 'Spridget' for years, and really does know what works and what doesn't when it comes to building a fast Midget or Sprite. Best of all, this book covers every aspect of the car, from the tyre contact patch to the rollover bar, and from radiator back to exhaust tailpipe. This new edition contains updated information for parts and suppliers, many new photos, and features new material covering aerodynamics, including results from testing the effect of modifications at the MIRA wind tunnel. With over 400 mainly colour photos and exclusive tuning advice, this is a MUST for any Sprite or Midget owner.

Ford Capri Herridge & Sons Limited

Chevrolet S-10 & GMC Sonoma Pick-ups Haynes Manuals N. America, Incorporated

For more than half a century the Morris Minor Traveller has been a familiar feature of rural and small-town Britain. Unpretentious, uncomplaining, half-timbered in an age of sleek pressed steel, Travellers were to be seen everywhere, laden with schoolchildren, dogs, jumble for the jumble sale, buzzing bravely along at no great speed. Ray Newell is the unchallenged authority on Minor matters, and here he begins by providing in-depth descriptions of the 803cc, 948cc and 1098cc Traveller models, with details of production and specification changes. Next he looks at special purpose versions as used by, among others, the armed forces, the coastguard and even the Barbados police. Then comes a section on one-off Travellers including an intriguing three-door conversion first built in the early 1950s. Countless Traveller owners have had to face the need for replacement of the timber framework of the body, a major undertaking, and an outstanding feature of this book is the chapter by Steve Forman devoted to this task, which is set out in step-by-step format with accompanying photographs. The final section of the book deals with upgrades available to bring the Minor's performance, braking and suspension up to more modern standards. These include engine replacements, five-speed gearboxes and disc brakes as well as less radical modifications. With some 300 colour and black-and-white illustrations accompanying the text, this is truly the owner's complete companion to the Minor Traveller.
