Under 8500, and 2003 F-
Series over 8500 vehicles
may exhibit a rattle from
the root opening panel
(moonroof) area, a failure
of the roof opening panel
to open properly, or a
water leak from the roof
opening panel. This may
be due to the water
trough being separated
from the trough guide on
either side, as a result of
a broken trough guide.
