Cold Honor is a fast-paced narrative about domestic terrorism in the United States. A horrific international conspiracy of terrorism is exposed. This story delves into the state of mind that is ever present in our history about fear, deception, retribution and honor in the name of family, country, ideology and religion. Cold Honor sets the evolving potential of future global terrorism and the resulting chaos that we can easily imagine from current news events. These are not stories of the apocalypse, but fictional images of the realities we already fear might happen in our near future. It's the stuff that comes from nightmares. Cold Honor is a book of consequences.

In the vein of Erin Brockovich, The Departed, and T. J. English's Savage City comes Busted, the shocking true story of the biggest police corruption scandal in Philadelphia history, a tale of drugs, power, and abuse involving a rogue narcotics

squad, a confidential informant, and two veteran journalists whose reporting drove a full-scale FBI probe, rocked the City of Brotherly Love, and earned a Pulitzer Prize . In 2003, Benny Martinez became a Confidential Informant for a member of the Philadelphia Police Department's narcotics squad, helping arrest nearly 200 drug and gun dealers over seven years. But that success masked a dark and dangerous reality: the cops were as corrupt as the criminals they targeted. In addition to fabricating busts, the squad systematically looted mom-and-pop stores, terrorizing hardworking immigrant owners. One squad member also sexually assaulted three women during raids. Frightened for his life, Martinez turned to Philadelphia Daily News reporters Wendy Ruderman and Barbara Laker. Busted chronicles how these two journalists—both middle-class working mothers—formed an unlikely bond with a convicted street dealer to uncover the secrets of ruthless kingpins and dirty cops. Professionals in an industry shrinking from severe financial cutbacks, Ruderman and Laker had few resources—besides their own grit and tenacity—to break a dangerous, complex story that would expose the rotten underbelly of a modern American city and earn them a Pulitzer Prize. A page-turning thriller based on superb reportage, illustrated with eight pages of photos, Busted is modern true crime at its finest.

In the late 1970s, Richard convinced his wife, Sandra, that they should leave their promising professional careers and comfortable suburban lifestyle to start an azalea nursery in the foothills of the Blue Ridge Mountains. With no horticultural training or business experience, few mechanical skills, and

absolutely no idea what they were getting themselves into, numerous adventures followed. In the second book in the planned four-book series, Richard continues the couples colorful story, a story of triumph and despair, of high expectations and harsh reality, and of the people who touched their lives along the way. In the tradition of such classics as *The Little House on the Prairie* and *Waltons Mountain, Mountain of My Dreams* shares the true story of two ordinary people and their memorable, often remarkable 25-year journey. Much more than just another back-to-the-land chronicle, this is a heartwarming tale of a man, a woman, and their belief in each other. If you've ever wondered why the less-traveled road is less traveled, you need to read their story.

Collision Reconstruction Methodologies - Volume 6C - The last ten years have seen explosive growth in the technology available to the collision analyst, changing the way reconstruction is practiced in fundamental ways. The greatest technological advances for the crash reconstruction community have come in the realms of photogrammetry and digital media analysis. The widespread use of scanning technology has facilitated the implementation of powerful new tools to digitize forensic data, create 3D models and visualize and analyze crash vehicles and environments. The introduction of unmanned aerial systems and standardization of crash data recorders to the crash reconstruction community have enhanced the ability of a crash analyst to visualize and model the components of a crash reconstruction. Because of the technological changes occurring in the industry, many SAE papers have been written to address the validation and use of new tools for collision reconstruction. Collision Reconstruction Methodologies Volumes 1-12 bring together seminal SAE technical papers surrounding advancements in the crash reconstruction field. Topics featured in the series include:

- Night Vision Study and Photogrammetry
- Vehicle Event Data Recorders
- Motorcycle, Heavy Vehicle, Bicycle and Pedestrian Accident

Reconstruction The goal is to provide the latest technologies and methodologies being introduced into collision reconstruction - appealing to crash analysts, consultants and safety engineers alike.

Savvy hadn't changed. She was smarter than you and didn't mind letting you know it. She'd whip you up and down trying to get her way. But we weren't lovers any more—and she'd stopped being a Barnburner long ago. Still... Conway Sax, the no-nonsense auto mechanic with a knack for solving difficult problems for the Barnburners, the renegade AA group who saved his life, is back in *The Whole Lie*. And for once, he thinks normalcy is within reach. He's opening a new garage, and he's finally moved in with longtime girlfriend Charlene. The end of his parole is finally in sight. Then along comes Savannah Kane: smart, smoky, and a pusher of men's buttons. Seven years ago, Conway helped her disappear—but not before they had a sizzling, knock-down-drag-out affair. Now she's back with a shocking revelation: she's the mother of a six-year-old boy. Savvy claims her son's father is billionaire Bert Saginaw, but Conway (not to mention Charlene) knows she's back for more than just a family reunion. Saginaw wants to be Lieutenant Governor of Massachusetts. Savvy wants to get paid. Conway wants nothing to do with either of them. But when Savvy turns up brutally murdered, he's got no choice but to sort lies from truth — even though doing so may cost him his freedom, his lover, and his life in this thrilling and heart-wrenching follow-up to critically acclaimed novel *Purgatory Chasm*, in the tradition of Robert B. Parker and Dennis Lehane. Praise for *The Whole Lie* "The Massachusetts gubernatorial race forms the backdrop for Ulfelder's excellent sequel to his Edgar-finalist debut, *Purgatory Chasm*... Ward's Automotive Yearbook Harper Collins

The truck's role in American society changed dramatically from the 1960s through the 1980s, with the rise of off-roaders, the van craze of the 1970s and minivan revolution of the 1980s, the popularization of the SUV as family car and the diversification of the pickup truck into multiple forms and sizes. This comprehensive reference book follows the form of the author's popular volumes on American cars. For each year, it provides an industry overview and, for each manufacturer, an update on new models and other news, followed by a wealth of data: available powertrains, popular options, paint colors and more. Finally, each truck is detailed fully with specifications and measurements, prices, production figures, standard equipment and more.

As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz — rich cars, poor quality. There's only one Saturn you should buy. Toyota — enough apologies: "when you mess up, 'fess up."

An edgy, modern spy thriller, *The Ghosts of Apollo* challenges our perception of the US space program, and our current world. Reluctant heroine Tess Shefford desperately struggles to protect a secret, hidden since NASA's Apollo Program, as she races to solve an audacious modern crime. With her life in peril, how can she prevail with assassins on the loose, autonomous vehicles used as killing machines, data mining to expose deeply hidden

secrets, and a system that does not trust her? President Kennedy ' s 1961 speech to Congress not only aimed to land a person on the moon and bring them back safely, it also set forth other objectives that we tend to forget. This fast-paced novel follows the logical extension of the president ' s speech and imagines where that might have led.

Expedition to the Unknown American Automobile Association
A collection of three adventure novels by Ronald Bagliere, now available in one volume!
