A "service engine soon" (SES)

light is an easy way for your

Ford's onboard computer

system to bring potential

engine problems or failing

parts to your attention.

However, once you have had

the repair completed, the

light may not reset itself

automatically. To turn the

light off, you must perform a

manual reset of your Ford's

computer system.

Ford Expedition Questions -
service engine soon light ...

Service Engine Soon Light
Meaning. If the ' Service
Engine Soon ' light comes
on, it means that there is a
minor problem with the
electronics or the engine of
your car. Some
manufacturers use them as a
check engine light for minor
problems. It could also mean
that it is time for a scheduled

service, such as oil or spark plug replacement. Some manufacturers only have one indicator for both scheduled service and engine problems. Warning Lamps and Indicators - Official Ford Owner Site
How to Reset a Ford Expedition's Check Engine Soon Light. by Richard Rowe. Jupiterimages/Photos.com/Getty Images. All Ford Expeditions use the same computer program and code set to record and diagnose engine malfunctions. This code set is known as OBD-II, or On-Board Diagnostics, Series 2. As the name suggests, the program continually monitors the engine through dozens of sensors to warn the driver if any of them exceed the factory parameters. If the Service Engine Soon indicator light stays lit after you 've started the engine, the On Board Diagnostics system (OBD) has detected a malfunction of the vehicle emissions control system. Contact your authorized dealer as soon as possible. If indicator light is blinking, an engine misfire may be occurring, which could damage your catalytic converter.

Ford dashboard warning lights are designed to alert you to any issues or malfunctions with a variety of vehicle parts and systems. For instance, when your Ford check engine light comes on, it can mean a few different things. Is your gas cap loose or broken? The first thing you should check when your check engine light comes on is your gas cap.

What does your Ford check engine light mean?

A flashing check engine light is your Ford Expedition 's way of saying " I have a serious problem, don ' t ignore me " . Most of the time, that serious problem is a misfire. This flashing light should not be ignored. When your engine is misfiring, it is dumping raw fuel into the exhaust.

Ford Expedition : Service Engine Soon Light Diagnosis ...

The check engine light comes

on and flashes when the PCM (computer) sees a direct engine misfire. Although it's not good to run the engine low on oil, this will not turn the check engine light on. In most cases, when the light is flashing is caused by a bad spark plug and/or spark plug boot.

Ford Check Engine Light (CEL), also known as service engine soon (SES) warning, will stay on if a problem has been detected by the On-Board Diagnostic System (OBD-II). Ford check engine light will turn on when you turn on the ignition under normal operation but should turn off and stay off once you start the engine.
