Own a 2015 ford expedition with 3.5L ecoboost. Took into dealer when check engine light came on. Had noticed at 70K poor fuel economy 14.5 mpg and poor acceleration. Replaced solenoid, plugs and wires. Left dealer and next day engine light came on. Noticed now Iam getting 12.5mpg on freeway with poor acceleration and rough idle.

Vehicles built after 1996 such as the Ford Expedition utilize a system known as On Board Diagnostics (OBD II) to monitor the performance of emissions components. When one of the emissions components fails, it send a trouble code to the engine computer, which in turn sends a signal for the check engine light on the dash to illuminate.

Service engine soon light 4 Answers. Service engine soon came on in 2003 Ford Expedition, Had the computer read, got the code and changed the appropriate part(s) but the light won't go off. Mechanic keeps telling me it will reset itself ...

Engine Light: One of the most sensitive lights on a Ford, the check engine light has two warning levels. For less serious issues (assuming the vehicle is operating normally), the light will stay on but remain steady. If the light blinks, however, there is a major issue. Do not drive the vehicle.

[Most Common Reasons for Check Engine Light Coming On](#)

The check engine light comes on and flashes when the PCM (computer) sees a direct engine misfire. Although it's not good to run the engine low on oil, this will not turn the check engine light on. In most cases, when the light is flashing is caused by a bad spark plug and/or spark plug boot.
