Ford 2.0L Duratec HE Engine Review
Duratec HE 2.0-liter engine is the same as 1.8-liter engine, but it has the bigger bore (87.5mm). The engine was designed by Japanese company Mazda (LF model of MZR series). The 2.0-liter Duratec engine looks preferable compared to the 1.8-liter engine.

Ford Duratec HE Tuning Guide This is the latest exciting

power unit to come from Ford and looks very much like the Zetec - especially when that engine's badged as such! But there are big differences - the engine has chain-driven cams as opposed to the Zetec's belt, plus the induction and exhausts are respectively on the opposite sides.
