Journeying through fusion in the universe, *Fusion: A Voyage Through the Plasma Universe* discusses all aspects of fusion and how they relate to our universe. It also studies the attempts to produce fusion energy on Earth. The book addresses a wide range of topics from stars, galaxies, comets, pulsars, black holes, and quasars to the auroras, lightning, and fluorescent tubes. Interestingly, the author explores how artists and authors like Vincent van Gogh, Leonardo da Vinci, and Hannes Alfvén have been fascinated by cosmic phenomena that rely on fusion and plasmas. He discusses motions in plasma, such as flames, waves, and whirls similar to those that occur in water. The book also examines several other branches of science where parallels can be found with fusion plasmas, including ecological systems that provide only very short-term weather forecasts and the dramatic changes in the world economy with its explosive tendencies and sometimes catastrophic results. It briefly shows how these nonlinear phenomena are at the heart of modern fusion plasma theory.

"This ethnography is more like a film than a book, so well does Stoller evoke the color, sight, sounds, and movements of Songhay possession ceremonies."—Choice "Stoller brilliantly recreates the reality of spirit presence; hosts are what they mediate, and spirits become flesh and blood in the 'fusion' with human existence. . . . An excellent demonstration of the benefits of a new genre of ethnographic writing. It expands our understanding of the harsh world of Songhay mediums and sorcerers."—Bruce Kapferer, *American Ethnologist* "A vivid story that will appeal to a wide audience. . . . The voices of individual Songhay are evident and forceful throughout the story. . . . Like a painter, [Stoller] is concerned with the rich surface of things, with depicting images, evoking sensations, and enriching perceptions. . . . He has succeeded admirably." —Michael Lambek, *American Anthropologist* "Events (ceremonies and life histories) are evoked in cinematic style. . . . [This book is] approachable and absorbing—it is well written, uncluttered by jargon and elegantly structured."—Richard Fardon, *Times Higher Education Supplement* "Compelling, insightful, rich in ethnographic detail, and worthy of becoming a classic in the scholarship on Africa."—Aidan Southall, *African Studies Review*
