This work is a true, factual story that reads like a romantic novel...which it actually is. Graham and Karen were both on the

Plenty of Fish (UK) dating site. Karen lived in Southampton with one of her two sons and worked in a local primary school whilst Graham lived in the rural Alentejo region of Portugal. Both had been on the PofF site a little intermittently over the years but one fateful February evening, Karen was browsing the site and a humorous poem Graham had recently drafted on his profile caught her eye. She sent a short message to him, which was appreciated, reciprocated and the rest, as they say, is history, their romantic history. An online flirtation developed, which led to Karen visiting Graham on holiday during her Easter break and a full blown romance followed which has eventually led to Karen leaving her job and her family in the UK to join Graham in Portugal. The book tells the story including the ups and downs of this event, has extracts from emails and texts which flew between the two and captures the warmth, humour, difficulties and love that saw them achieve their dreams.

If you are looking for a book that will divulge the secret to

making millions of dollars in a short amount of time without working hard at it, then you have the wrong book. If you do find a book providing that information, then put it down and walk away. If that book existed, wouldn't every reader be a millionaire? *Wealth Virtues* by James Ward simplifies the definition of wealth as "the ability to acquire more money than you spend, and to save more than you owe." This ability comes from understanding both your behavior, and the cyclic nature of money. By applying the practice of the *Thirteen Virtues of Benjamin Franklin with the Cycle of Positive Wealth*, anyone can be wealthy regardless of their current income. It is simply a matter of applying the things you already know into practice. *Wealth Virtues* reveals the simple path to get you there. James Ward is wealthy. Not "John D. Rockefeller wealthy," but rather has more money flowing in than flowing out. He is or has been a successful computer scientist, Coast Guardsman, Army Officer, analyst, musician, graphic designer, skier, manager for a defense contractor, business owner, and a writer. He is also a successful investor, but lives well within his means. As the owner of Poor Richard Web Press, he helps businesses, non-profits, and individuals succeed with their Internet marketing goals. He also helps other writers with free online marketing tools at [BiblioScribe.com](http://BiblioScribe.com), and is a contributor to First Book, and organization that provides new books to children in need. Although his savings and investments continue to grow from the continual practice of Dr. Benjamin Franklin's *Thirteen Virtues* while following the *Cycle of Positive Wealth*, he realizes that his only true and most valuable treasure is his family.

"By 1910, the forest region of the Great Lakes states was largely denuded, logged over by industrialists who coveted its timber, particularly the giant white pine. After unsuccessful attempts to farm this "cutover" region of Minnesota, Wisconsin, and Michigan, a group of visionaries began to dream of restoring the North Woods as a place of solace and beauty, of recreation and retreat, for the benefit of people ever more remote from the splendors of nature. What ensued was an extraordinary campaign to recreate the original Midwest forest - the Great Lakes Crusade that James Kates chronicles in this enlightening, deeply interesting, and entertaining account of a "natural" wonderland remade from the ground up."--BOOK JACKET.
