The ultimate service manuals! Bentley manuals are the only comprehensive, single source of service information and specifications available for BMW cars. These manuals provide the highest level of clarity and completeness for all service and repair procedures. Enthusiasts, do-it-yourselfers, and professional technicians will appreciate the quality of photographs and illustrations, theory of operation, and accurate step-by-step instructions. If you are looking for better understanding of your BMW, look no further than Bentley. Even if you do not repair your own vehicle, knowledge of its internal workings will help you when discussing repairs and maintenance with your professional automotive technician. This Bentley Manual is the only comprehensive, single source of service information and specifications available specifically for BMW 5 Series from

1997 to 2002. The aim throughout this manual has been simplicity, clarity and completeness, with practical explanations, step-by-step procedures and accurate specifications. Whether you are a professional or a do-it-yourself BMW owner, this manual will help you understand, care for and repair your E39 5 Series. Though the do-it-yourself BMW owner will find this manual indispensable as a source of detailed maintenance and repair information, the BMW owner who has no intention of working on his or her car will find that reading and owning this manual will make it possible to discuss repairs more intelligently with a professional technician.

Austin/MG Metro Chartwell Books
"At one stage almost all the cars sold in New Zealand were assembled in this country by big names like Holden, Ford and Toyota. Less known is the fact that during this time New Zealand was also the producer of many home grown cars and still is, but on a much smaller scale. The companies that produced these cars were forced to work on a shoestring budget and could not afford advertising campaigns to make their cars known. Largely ignored by mainstream motoring magazines they relied on word of mouth and success on the race track to get into the public domain. This book looks at the vehicles which make up an important part of our motoring heritage. Many have never appeared in print before. Included are cars such as the Heron, inspired by the Lotus Esprit,

of which 28 were sold in turnkey form. The Escartus, a car that was going to be a supercar in the early eighties but only a few were built. The Mistral was a British body brought into the country in the late fifties and built into a competitive production car using Kiwi ingenuity. Included also is the Saker which is New Zealand's least known supercar, but was built in at least three different countries and has its own racing series called the European Saker Sports Car Challenge . Inside these pages are New Zealand's automotive successes, the survivors and the short lived. As many as possible of these unique vehicles have been documented in this essential book for all car enthusiasts."--Publisher's description.

Go Like Hell Hassell Street Press

In *Cars We Used To Drive*, Don Loffler, well-known Holden author, reveals his lifelong interest in all makes of cars on Australian roads in the years 1946 to 1966.
