Get Fords complete story in Ford Tough: 100 Years of Ford Trucks and see why they ' ve dominated the truck market, selling 1.5 million trucks every year in the US alone. In July 1917 Ford Motor Company introduced a one-ton chassis for commercial trucks, marking what many historians feel was its official entry into the dedicated truck business. Sure, after-market pickup beds could be added to a Model T car to convert it to a pickup, but with the debut of the rugged Model TT truck chassis, Ford was firmly in the truck market. Eight years later, Ford introduced its first factory-produced pickup, a sturdy half-ton job the public loved. During the century that has passed since that first Ford truck chassis, the F-series has become the best-selling truck in the world, and the best-selling vehicle of any type in America. Ford Tough: 100 Years of Ford Trucks tells the entire Ford truck story from the very beginning, when Ford got its start in truck production. This book provides the history of the wide array of models Ford has built over the past century, including the Model A roadster pick-up, stylish 81C pickups, legendary 1948 F-1, Bronco, Courier, Ranchero, and Econoline.

A commemorative history of fifty years of the iconic Ford Transit van, from the launch of the first-generation Transit in 1965, right up to the present day. Covering the full range of Transit models and with over three hundred photographs (including previously unpublished pictures from Ford's picture archive), Ford Transit - Fifty Years is an ideal resource for anyone with an interest in this world-beating commercial vehicle. Written by acknowledged Ford Transit expert Peter Lee, the book covers the development era, light commercial vehicles in the 1950s, the 'Project Redcap' prototypes and the first Transit. It goes on to describe the production and development of all eight generations and variants of Transits, including custom vans, camper vans, minibuses and special vehicle options. Specification guides, awards, and sales figures are all included as well as marketing worldwide. Finally, there are interviews with designers, engineers and Ford employees, along with owners' experiences. The Transit has and continues to receive numerous awards, voted 'International Van of the Year' in 2001 and 2013, and with the 2014 launch of the all-new two-tonne Transit and its pioneering technology, this looks to be only the first fifty years of the Ford Transit story. Fully illustrated with 200 colour and 100 black & white photographs, many previously unseen from Ford's archives.
