Medical Insurance Online for Fordney's Medical Insurance and Billing(access Code) Elsevier Health Sciences Medical Insurance is designed around the revenue cycle with each part of the book dedicated to a section of the cycle followed by case studies to apply the skills discussed in each section. The revenue cycle now follows the overall medical documentation and revenue cycle used in practice management/electronic

health records environments and applications. Because of the mandate to the healthcare industry to adopt ICD-10-CM/PCS on October 1, 2015, you must work to gain expertise using this coding system. For this reason, ICD-10 is the diagnostic coding system taught and exemplified in *Medical Insurance: A Revenue Cycle Process Approach. any of today's outpatient settings. The 15th edition has been expanded to include inpatient insurance and billing and ambulatory surgical center billing. Updated coverage emphasizes the role of the medical insurance specialist in areas such as diagnostic coding, procedural coding, Medicare, HIPAA, and bill collection strategies. As with previous editions, all the plans that are most commonly encountered in clinics and physicians' offices are incorporated into the text, as well as icons for different types of payers, lists of key abbreviations, and numerous practice exercises that accurately guide you through the process of

filling out claim forms. In addition, SimChart® for the Medical Office (SCMO) activities on the companion Evolve website give you the opportunity to practice using electronic medical records. UNIQUE! Interactive UB-04 Form filler on Evolve gives you additional practice with inpatient Electronic Health Records. Separate chapter on HIPAA Compliance in Insurance Billing, as well as Compliance Alerts throughout highlights important HIPAA compliance issues to ensure you are compliant with the latest regulations. Separate chapter on documentation in the medical office covers the principles and rationales of medical documentation.

Increased focus on electronic filing/claims submission prepares you for the industry-wide transition to electronic claims submission. Emphasis on the business of running a medical office and the importance of the medical insurance specialist prepares you for your role in the workplace. Detailed examples of potential situations throughout text signal you to be attentive to these types of occurrences. Specialized icons throughout text alert you to the connections and special considerations related to specific topics that medical insurance specialists need to be aware of. Procedures clearly outline in step-by-step format detail

common responsibilities of the medical insurance specialist. SimChart® for the Medical Office (SCMO) application activities on the companion Evolve website add additional functionality to the insurance module on the SCMO roadmap. Key terms are defined and emphasized throughout the text to reinforce your understanding of new concepts and terminology. NEW!
