As eighteen-year-old Cheryl Hunter escapes rural Colorado for the bright lights of Europe, she does so with nothing more than an over-packed suitcase and a dream. Once there, her mind is bent on

solving one problem alone: how does a small-town cowgirl pull off the feat of becoming an international supermodel? When Cheryl is abducted, raped and brutally beaten instead, she is faced with solving a much bigger problem: how does she survive? Using her journey of rising from the ashes as fuel, Hunter delivers a step-by-step method that can be applied by anyone who has ever dealt with less-than-favorable circumstances. In a world where—let ' s face it—life often hijacks our personal agendas, Cheryl shows you how to immediately take back the reins, design a life you love, and become the unstoppable force of nature you were born to be.

Chase Williams is a demon hunter in the Circle, or at least he was supposed to be. On his fifteenth birthday, Chase stepped up to the altar to claim his elemental power, but it never came. Elemental magic is passed down to a hunter through the bloodline, but on Chase's birthday, the bloodline stopped. Exiled without the Circle's protection, Chase has spent two years trying to survive a world riddled with half-demons and magic. When he has a run in with a frightened

and seemingly innocent demon, he learns the Circle's agenda has changed: the Circle plans to unlock a portal and unleash pure-blood demons into the world. Vowing to stop them, and knowing he can't do it alone, Chase forms a reluctant alliance with Rayna - a sexy witch with an attitude and a secret. In their attempt to stop them, Chase and Rayna find themselves in the middle of the Circle's plan, leaving one of them to decide what their friendship is worth, and the other's life depending on it.

This autobiography follows the life of Anna Shaw (1847-1919) from her birth in Newcastle-on-Tyne, England

through her presidency of the National American Woman Suffrage Association. Shaw immigrated with her genteel but financially pressed family to America in 1851. They settled first in New Bedford and then in Lawrence, Massachusetts, finally migrating in 1859 to a pioneer farmstead in northern Michigan, where Anna performed much of the subsistence labor during her father's long absences. The first part of her narrative emphasizes her efforts to gain an education and take up a ministerial career. After two years at Albion College, she attended Boston Theological School (1876-1878) and accepted a pastorate in East Dennis, Cape Cod, after graduation; later she also took temporary charge of the Congregational Church in Dennis. After her ordination had been blocked by members of the New England Conference of the Methodist Episcopal Church opposed to ordaining women, Shaw was ordained by the 1880 Conference of the Methodist Protestant Church in Tarrytown, N.Y.

From one of our most distinguished historians comes a groundbreaking new examination of the myths and realities of the period after the Civil War. Drawing on a wide range of long-neglected documents, Eric Foner places a new emphasis on black experiences and roles during the era. We see African Americans as active agents in overthrowing slavery, in shaping Reconstruction, and creating a legacy long obscured and misunderstood. He compellingly refutes long-standing misconceptions of Reconstruction, and shows how the failures of the time sowed the seeds of the Civil Rights struggles of the 1950s and 60s. Richly illustrated and movingly written, this is an illuminating and essential addition to our understanding of this momentous era.

Sometimes life is like a movie. There are moments and events in life - not often - that are as exciting and as dramatic as a movie. What happened in Lake Placid, New York in February 1980 at the Thirteenth Winter Olympics was such a time. For those who experienced it in person or watched the games on television, they remember where they were when the US hockey team beat the Soviet Union and then beat the team from Finland two days later to win the gold medal. The sports victory of an underdog group of college kids was thrilling enough but it was a win against the Soviet Union. This Cold War adversary was also the nation hosting the summer games later that year which the United States was threatening to boycott. The excitement and drama in Lake Placid gave the games a huge lift of enthusiasm and popularity when some had even come to believe that staging the Olympics was no longer affordable

for many communities and that perhaps the 1980 Winter Games should be cancelled entirely. Indeed, as the games began, a US News and World Report magazine questioned whether the Lake Placid games were the "last Olympics." What happened on the hockey ice was improbable enough, but the Lake Placid Winter Games were a long shot, if not a miracle too. Winning the games had been an unlikely decades-long quest for this small town to overcome the barriers of exploding finances, environmental concerns and world politics. Few remember that the 1980 games were never supposed to take place in Lake Placid. They came to the small village because of unexpected events which unfolded and made the two weeks in the remote Adirondacks before a worldwide audience of nearly a billion viewers one of the most dramatic times in the modern era of sports, media and politics. It would not be too much of a stretch to say that the Lake Placid Games, which brought the "Miracle on Ice," saved the Winter Olympics in 1980 and greatly enhanced them for the future.

A memoir and a call to action, this intimate look at America's long-standing struggle to adequately educate vulnerable children offers valuable insights for effecting change in families, communities, and nationwide. At the root of every important problem we face, from mass incarceration to income

inequality, is an education system influenced by our nation's fraught history. Just as past generations fought to ensure that all Americans could enjoy the right to fully participate in our democracy, so must we rally tirelessly to advance an educational agenda that promotes equity and inclusion. With the gap between white academic achievement and that of students of color widening, now is the time to turn our attention to the basics, and few would argue with the fact that the single most essential aspect of a good education is literacy. Beyond reading and writing, literacy encompasses a whole host of skills that allow us to develop our potential and succeed in society, including critical thinking, self-discipline, curiosity, leadership, and motivation. Helping all our nation's young people, especially those who live in low-income communities, improve their literacy skills should be a top priority. Numerous programs are operating around the

country to address the issue of underperformance in light of the shortcomings of our public school system. In *Forever Free*, Tracy Swinton Bailey charts the journey of one such program, her nonprofit Freedom Readers. From a childhood shaped by books to a career promoting the love of reading, she describes the hurdles and rewards of academia, teaching, mobilizing, and fundraising. Bailey outlines clearly and persuasively how Freedom Readers' one-to-one tutoring model has worked in the rural South, and how it can work across the US. This book will inspire and empower readers, and should be placed in the hands of educators and organizers at every level.
