On War Yale University Press One of the nation's foremost Lincoln scholars offers an authoritative consideration of the document that

represents the most far-reaching accomplishment of our greatest president. No single official paper in American history changed the lives of as many Americans as Lincoln's Emancipation Proclamation. But no American document has been held up to greater suspicion. Its bland and lawyerlike language is unfavorably compared to the soaring eloquence of the Gettysburg Address and the Second Inaugural; its effectiveness in freeing the slaves has been dismissed as a legal illusion. And for some African-

Americans the
Proclamation
raises doubts
about Lincoln
himself. Lincoln's
Emancipation
Proclamation
dispels the myths
and mistakes
surrounding the
Emancipation
Proclamation and
skillfully
reconstructs how
America's
greatest president
wrote the
greatest American
proclamation of
freedom.

The wars in Afghanistan and Iraq have focused new attention on a perennial problem: how to end wars well. What ethical considerations should guide war's settlement and its aftermath? In cases of protracted conflicts, recurring war, failed or failing states, or genocide and war crimes, is there a framework for establishing an enduring peace that is pragmatic and moral? **Ethics Beyond War's** End provides

answers to these questions from the just war tradition. Just war thinking engages the difficult decisions of going to war and how war is fought. But from this point forward just war theory must also take into account what happens after war ends, and the critical issues that follow: establishing an enduring order, employing political forms of justice, and cultivating collective forms of conciliation. Top thinkers in the field—including Michael Walzer, Jean Bethke Elshtain, James Turner Johnson,

and Brian Orend—offer powerful contributions to our understanding of the vital issues associated with late- and post conflict in tough, real-world scenarios that range from the US Civil War to contemporary quagmires in Afghanistan, the Middle East, and the Congo.

The New York Times bestseller with more than 1 million copies sold worldwide Inspired by the incredible true story of one Jewish family

separated at the start of World War II, determined to survive—and to reunite—We Were the Lucky Ones is a tribute to the triumph of hope and love against all odds. “Love in the face of global adversity? It couldn't be more timely.” —Glamour It is the spring of 1939 and three generations of the Kurc family are doing their best to live normal lives, even as the shadow of war grows closer. The talk around the family Seder table is of new babies and budding romance, not of the increasing hardships threatening Jews in their hometown of

Radom, Poland. But soon the horrors overtaking Europe will become inescapable and the Kurcs will be flung to the far corners of the world, each desperately trying to navigate his or her own path to safety. As one sibling is forced into exile, another attempts to flee the continent, while others struggle to escape certain death, either by working grueling hours on empty stomachs in the factories of the ghetto or by hiding as gentiles in plain sight. Driven by an unwavering will to survive and by the fear that they may never see one another again, the

Kurcs must rely on hope, ingenuity, and inner strength to persevere. An extraordinary, propulsive novel, *We Were the Lucky Ones* demonstrates how in the face of the twentieth century's darkest moment, the human spirit can endure and even thrive.

A nuanced psychological portrait of Abraham Lincoln that finds his legendary political strengths rooted in his most personal

struggles. Giving shape to the deep depression that pervaded Lincoln's adult life, Joshua Wolf Shenk's *Lincoln's Melancholy* reveals how this illness influenced both the President's character and his leadership. Mired in personal suffering as a young man, Lincoln forged a hard path toward mental health. Shenk draws on seven years of research from historical record, interviews with Lincoln scholars, and contemporary research on depression to understand the nature of Lincoln's unhappiness. In the process, Shenk discovers that the President's coping strategies—among them, a rich sense of humor and a tendency

toward quiet reflection—ultimately helped him to lead the nation through its greatest turmoil. A New York Times Book Review Editors' Choice

This book analyses war monuments by developing a multimodal social-semiotic approach to understand how they communicate as three-dimensional

objects. The book provides a practical tool-kit approach to how critical multimodal social semiotics should be done through visual, textual and material analysis. It ties this material analysis into the social and political contexts of production. Using examples across the 20th and 21st century the book's chapters offer a way of analysing the way that monument designers have used specific semiotic choices in terms of things like iconography, objects, shape, form, angularity, height, materials and surface realisation to place representations of

war in public places across Britain. This social-semiotic approach to the study of war monuments serves three innovative purposes. First, it provides a contribution to the work on the ideological representations of war in Media and Cultural Studies and in Critical Discourse Analysis applied specifically to more banal realisations of discourse. Second, it responds to calls by historians for innovative ways to study war commemoration by providing an approach that offers both specific analysis of the objects and attends

to matters of design. Thirdly, following in the relatively recent tradition of multimodal analysis, the arguments draw on the ideas of Kress and van Leeuwen (1996, 2001), adapting and extending their theories and models to the analysis of British commemorative war monuments, in order to develop a multimodal framework for the analysis of three dimensional objects. **Forever** Penguin UK A Wall Street Journal national security reporter takes readers into the lives of frontline U.S. special operations troops

fighting to keep the Taliban and Islamic State from overthrowing the U.S.-backed government in the final years of the war in Afghanistan. A FINANCIAL TIMES BEST BOOK OF THE YEAR “Powerful, important, and searing.” —General David Petraeus, U.S. Army (ret.), former commander, U.S. Central Command, former CIA director In 2015, the White House claimed triumphantly that “the longest war in American history” was over. But for some, it was just the beginning of a new war, fought by Special Operations

Forces, with limited resources, little governmental oversight, and contradictory orders. With big picture insight and on-the-ground grit, Jessica Donati shares the stories of the impossible choices these soldiers must make. After the fall of a major city to the Taliban that year, Hutch, a battle-worn Green Beret on his fifth combat tour was ordered on a secret mission to recapture it and inadvertently called in an airstrike on a Doctors Without Borders hospital, killing dozens. Caleb stepped on a bomb during a mission in notorious Sangin. Andy was

trapped with his team during a raid with a crashed Black Hawk and no air support. Through successive policy directives under the Obama and Trump administrations, America came to rely almost entirely on US Special Forces, and without a long-term plan, failed to stabilize Afghanistan, undermining US interests both at home and abroad. Eagle Down is a riveting account of the heroism, sacrifice, and tragedy experienced by those that fought America’s longest war. [The Forever War: Forever Free #3](#) Penguin

The Forever War
HarperCollins
From the "preeminent historian of Reconstruction" (New York Times Book Review), a newly updated edition of the prize-winning classic work on the post-Civil War period which shaped modern America, with a new introduction from the author. Eric Foner's "masterful treatment of one of the most complex periods of

American history" redefined how the post-Civil War period was viewed.
Reconstruction chronicles the way in which Americans—black and white—responded to the unprecedented changes unleashed by the war and the end of slavery. It addresses the ways in which the emancipated slaves' quest for economic autonomy and equal citizenship shaped the political agenda of Reconstruction; the remodeling of Southern society and the place of planters, merchants, and small farmers within it; the evolution of racial attitudes and patterns of race relations; and the emergence of a national state possessing vastly expanded authority

and committed, for a time, to the principle of equal rights for all Americans. This "smart book of enormous strengths" (Boston Globe) remains the standard work on the wrenching post-Civil War period—an era whose legacy still reverberates in the United States today.

A renowned military historian closely examines the first month of World War I in France. On August 1, 1914, war erupted into the lives of millions of families across France. Most people thought the conflict would last just a few weeks . . .
Yet before the

month was out, twenty-seven thousand French soldiers died on the single day of August 22 alone—the worst catastrophe in French military history. Refugees streamed into France as the German army advanced, spreading rumors that amplified still more the ordeal of war. Citizens of enemy countries who were living in France were viciously scapegoated. Drawing from diaries, personal correspondence, police reports, and government archives, Bruno Cabanes renders an intimate, narrative-driven study of the

first weeks of World War I in France. Told from the perspective of ordinary women and men caught in the flood of mobilization, this revealing book deepens our understanding of the traumatic impact of war on soldiers and civilians alike. “An exceptional book, a brilliant, moving, and insightful analysis of national mobilization.” —Martha Hanna, author of *Your Death Would Be Mine: Paul and Marie Pireaud in the Great War* “This book deserves a wide readership from historians, critics and anyone interested in the

catastrophe of war.” —Mary Louise Roberts, Distinguished Lucie Aubrac and Plaenert-Bascom Professor of History, University of Wisconsin, Madison “The sounds, sights and emotions of August, 1914 are all evoked with exceptional skill.” —David A.
