Book 2 covers the topics of Mechanics, which is a foundation of Physics for many other topics. The name Force and Motion is used by the HKEAA for this section of the syllabus. In a sense this reflects some changes in the methodology in teaching and learning. It takes time for students to grasp the concepts and master the necessary skills in solving problems. To make learning Physics more interesting, I have included relevant questions related to our everyday experience and new happenings, such as the docking of the Tiangong 1 space module with Shenzhou 8 spacecraft (天宮一號與神州八號對接) and the Wenzhou Train Accident (甬台溫鐵路列車追撞事故).
