Jurisdiction and Arbitration Agreements in International Commercial Law
Manchester University Press

Arbitration and jurisdiction agreements are frequently used in transnational commercial contracts to reduce risk, gain efficacy and acquire certainty and predictability. Because of the similarities between these two types of procedural autonomy agreements, they are often treated in a similar way by courts and practitioners. This book offers a comprehensive study of the prerequisites, effectiveness, and enforcement of exclusive jurisdiction and arbitration agreements in international dispute resolution. It examines whether jurisdiction and arbitration clauses have identical effects in private international law and whether they have been or should be given the same treatment by most countries in the world. By comparing the treatment of these clauses in the US, China, UK and EU, Zheng Sophia Tang demonstrates how, in practice, exclusive jurisdiction and arbitration agreements are enforced. The book considers whether the Hague Convention on Choice of Court Agreements could be treated as a litigating counterpart to the New York Convention, and whether it could work successfully to facilitate judicial cooperation and party autonomy in international commerce. This book breaks new ground in combining updated materials in EU, US and UK law with unique resources on Chinese law and practice. It will be valuable for academics and practitioners working in the field of private international law and international arbitration.

Annotation An engineer with experience in the automotive and chemical process industries, Budinski has compiled material he used to train new engineers and technicians in an attempt to get his co-workers to document their work in a reasonable manner. He does not focus on the mechanics of the English language, but on the types of documents that an average technical person will encounter in business, government, or industry. He also thinks that students with no technical background should be able to benefit from the tutorial. c. Book News Inc

Planning to Teach Writing Routledge

Building on her groundbreaking work in *Writing Superheroes*, Anne Dyson traces the influence of a wide-ranging set of “textual toys” from children’s lives—church and hip-hop songs, rap music, movies, TV, traditional jump-rope rhymes, the words of professional sports announcers and radio deejays—upon school learning and writing. Wonderfully rich portraits of five African American first-graders demonstrate how children’s imaginative use of wider cultural symbols enriches their school learning. Featuring lively and engaging vignettes of children who are often left behind by our educational system, this book: Provides a detailed view of written language development from inside a particular childhood culture. Shows that children bring a rich folk culture to school and demonstrates how they “remix” their cultural references to accommodate school tasks such as writing. Turns the traditional educational view inside out by starting from inside a child’s culture and looking out toward the demands of school, rather than starting on the outside of the child and looking in. Provides concrete examples of how children’s cultural literacy practices translate into classroom practices and, in turn, into practices of academic success. “The most significant work that has ever been done in this area. It is superior in every respect and Anne Dyson writes like a dream.” —Tom Newkirk, University of New Hampshire “This book is unique in that it features students who draw on the cultural experiences of the Black church, sister and brother play—family games, rap, and Black popular music. It should be ideal in courses on literacy learning.” —Arnetha Ball, School of Education, Stanford University

How to write a E book ? Ronin Publishing

CITIZEN NINJA stand up to power in pursuit of freedom, truth, and justice. Citizen Ninjas speak up; they don't wait for others to speak for them. Citizen Ninjas are prepared, discerning, self-reliant and assertive. They step out of their comfort zone to nimbly challenge powerful entities that disenfranchise the public and reduce citizen power. Citizen Ninjas respond to community issues and actively engage City Hall to make a difference. They pay attention to government business and actively direct elected public servants to create policies that benefit the interests of the whole community. They are the activists who demand government transparency and are the watchdogs who speak out when there is corruption or ethical wrongdoing. Citizen Ninjas are passionate. They know that their civic participation places them in a better position of influence when new regulations, mandates, and ordinances are enacted. Citizen Ninjas are activists who strive to preserve the power of self-government—a representative republic that is of the people, by the people, and for the people. They actively engage in the public square rather than passively allowing government agencies to make decisions on their behalf. While being passionate, Citizen Ninjas avoid throwing vitriolic word bombs like "fascist pig" or "baby killer" and instead build trust, find common ground, and work toward constructive solutions. Showing up at a city council meeting, a public workshop, a rally, or a town hall meeting to express dissatisfaction is the right thing to do, but being effective takes more than good intentions. Citizen Ninjas are smarter, more cunning and strategically savvy in approaching highly organized government agencies, powerful corporations and established non-governmental organizations they partner with. In *CITIZEN NINJA* author Baker presents a peaceful approach to political activism espousing an exchange of ideas, robust debate, respect, and tolerance as opposed to tactics which promote violence, hatred, prejudice, and bullying. Every two years, many Americans get busy and campaign for the candidate of their choice. Activity ranges from simply speaking to friends and family about their choices, to donating money, walking precincts, and voting. Then after the election the majority go back to working, playing, and raising families. *CITIZEN NINJA* explores the importance of continuing participation in government after elections. Baker stresses that We the People keep informed about what is going on in local government agencies—city council, school board, county board of supervisors, and metropolitan planning organizations, to seek opportunities for civic participation. In *CITIZEN NINJA* shows that we are the boss, politicians are the employees who require supervision and guidance and are more effective when having our support and attention. When we are part of the process, we are part of the solution. In *CITIZEN NINJA* readers learn how to speak up in public without being scared or intimidated. *CITIZEN NINJA* shows that to be effective in civil discourse, we must transform the way we think about activism. Standing up to power is not about acting out in anger, condoning violence, or relying on mean-spirited tactics. Rather it is about honesty, building trust, treating others with respect, working towards constructive solutions, and effective communication. With practice, *CITIZEN NINJA* readers will master skills that enable them to respond intelligently rather than to reacting to stimulation or provocation. These skills include how to seek opportunities for engagement, assess a setting, ask a question, discern a person's knowledge on an issue, neutralize a bully, and more!
