Jin adalah makhluk yang bersama-sama dengan kita menghuni planet bumi ini, Bahkan kehadiran jin jauh lebih dulu daripada manusia. Jin juga adalah makhluk mukallaf yang dikenai hukum dan kewajiban seperti manusia, karena mereka juga memiliki akal, nafsu dan kehendak bebas. Allah SWT berfirman:

Tidakkah Aku ciptakan jin dan manusia kecuali untuk beribadah kepada-Ku. Namun, karena sifatnya secara umum yang tidak terlihat oleh mata manusia, maka kita kadang-kadang memperoleh gambaran-gambaran yang keliru tentang bentuk, sifat dan kehidupan jin. Buku ini berusaha merekam dialog antara penulisnya. Muhammad 'Isa Dawud, dengan salah satu Jin-Muslim. Dialog tersebut begitu lugas, sehingga menjadikan buku ini benar-benar asyik dibaca. Dari dialog-dialog ini, pembaca akan memperoleh berbagai informasi baru yang menakjubkan tentang dunia jin yang sebenarnya. Buku ini sedikit-banyak akan meluruskan persepsi-persepsi kita yang salah tentang bentuk, watak dan kehidupan jin: sejak asal-mula jin hingga berbagai kejadian yang berkaitan dengan jin, seperti gangguan setan dan sihir, lengkap dengan cara pengobatannya. Untuk setiap topik dialog, penulisnya menambahkan catatan yang merujuk kepada Alquran, hadis Nabi saw., serta temuan-temuan ilmiah demi mengukuhkan kebenaran pernyataan jin tersebut.

The current dynamics of world economy show remarkable changes in the socio-economics of credit provision and entrepreneurship. If the emergence of the sharing economy is fostering innovative models of collaborative agency, networking and venture business, economic actors are also looking for a more sustainable development, able to foster profitability as well as

community welfare. This book investigates Islamic social finance as a paramount example of this economy under change, where the balance between economic efficiency and social impact is contributing to the transformation of the market from an exchange- to a community-oriented institution. The collected essays analyse the social dimension of entrepreneurship from an Islamic perspective, highlighting the extent to which the rationales of "sharing," distribution and cooperation, affect the conceptualization of the market in Islam as a place of "shared prosperity." Moving from the conceptual "roots" of this paradigm to its operative "branches," the contributing authors also connect the most recent trends in the financial market to Shari'ah-based strategies for community welfare, hence exploring the applications of Islamic social finance from the sharing economy, FinTech and crowdfunding to microcredit, waqf, zakat, sukuk and green investments. An illuminating reference for researchers, practitioners and policy-makers dealing with the challenges of a global market where not only is diversity being perceived as a value to be fostered, but also as an important opportunity for a more inclusive economy for everybody.

Mirroring the expansion of wealth in the Middle East and Asia and a surge in Islamic self-identity, Islamic banking practices have either become the law of

the land or coexist and compete with Western practices in at least six countries. A growing number of institutions and mutual funds (akin to Western "socially responsible" funds) have established Islamic investment and other practices to cater to this burgeoning market. Because of its prevalence, practitioners in every banking-related area must familiarize themselves with current Islamic finance practices in order to do business with Muslim clients and to engage in cross-border financing. Injunctions from the "Qur'an and the sayings of Prophet Muhammed have generated a web of interrelated norms which prohibit Islamic financiers from engaging in transactions that involve interest "(riba) and speculation "(gharar). "Islamic Law and Finance describes the dynamic set of Islamically-sanctioned ways financiers can transact business.
