Welcome to FOSSweb The Full Option Science System

Portal. FOSSweb is the official website of the active-learning science program, FOSS.

Explore resources for educators and engaging activities for students and families.

Resources By Investigation - FOSS We then charted any mixtures that they may know: chocolate milk, fruit salad, clothes in the dryer, coffee and creamer, stew, Skittles, etc. I did not differentiate between mixtures and solutions. Students also had the opportunity to sort out pictures into either a mixture or a solution.

FOSS Mixtures and Solutions Investigations 1-4 Big Idea: EALR 4

Matter: Properties and Change A single kind of matter can exist as a solid, liquid, or gas. Matter is not lost during changes of state. Matter has physical and chemical properties such as Success Criteria: I can... explain the difference between a mixture and solution.

simple mixtures, suspensions, and solutions. Students make mixtures of water and solid materials and separate the mixtures with screens and filters. They find that water and salt make a particular kind of mixture, a solution, which cannot be separated with a filter but only through evaporation. They begin to develop a model of dissolving.

Module 3 Content
Reading Assessment

- A mixture is two or more materials intermingled.
- An

aqueous solution is a mixture in which a substance disappears (dissolves) in water to make a clear liquid.

- Mixtures can be separated into their constituents by using screen, filters, and evaporation.

4 Ever a Teacher: Mixtures and Solutions
The Mixtures and Solutions

Module has five investigations that engage students with the phenomena of matter and its interactions in our everyday life—mixtures, solutions, solubility, concentration, and chemical reactions. The driving question is what is matter and what happens when samples of matter interact?

Mixtures and Solutions
Students make mixtures of water and solid materials and separate the mixtures with screens and filters. They find that water and salt make a special kind of mixture, a

solution, which cannot be separated with a filter but only through evaporation. Students are challenged with a problem: how to separate a mixture of three dry solid materials.

Mrs. Molishus / Mixtures and Solutions

Just remember, a mixture is any combination of two or more substances that don't chemically combine and a solution is a homogeneous mixture, meaning the ratio of substances is uniform throughout ...
